Accidental Release Prevention Requirements: Risk Management Program Under Section 112(r)(7) of the Clean Air Act as Amended; Clean Air Act Advisory Committee: Accident Prevention Subcommittee's Electronic Submission Workgroup Final Recommendations Report

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of availability.

SUMMARY: The Clean Air Act section 112(r) required EPA to publish regulations focusing on the prevention of chemical accidents. On June 20, 1996, EPA published the final rule for risk management programs.

An estimated 66,000 facilities are subject to this regulation based on the quantity of regulated substances they have on-site. Facilities that are subject will be required to implement a risk management program at their facility, and submit a summary of this information "in a method and format" to a central location as specified by EPA prior to June 21, 1999.

The Accident Prevention Subcommittee of the CAA Advisory Committee created the Electronic Submission Workgroup in October 1996 to make recommendations on the method and format of RMP submissions. The "Electronic Submission Workgroup Final Recommendations Report" contains recommendations on the technical and practical issues associated with creating a national repository of electronic Risk Management Plans. The report includes recommendations on how the regulated community will report their Risk Management Plans, and how state and local governments, EPA and the public will have access to this information.
