[Project No. 2232-336]

#### Duke Power Company; Notice of Availability of Environmental Assessment

June 26, 1997.

In accordance with the National Environmental Policy Act of 1969 and the Federal Energy Regulatory Commission's Regulations, 18 CFR Part 380 (Order No. 486, 52 FR 47910), the Office of Hydropower Licensing (OHL) has reviewed an application for non-project use of project lands and waters. Duke Power Company proposes to permit the Town of Davidson to excavate Davidson Pond, a small

embayment of Lake Norman, the project reservoir. The Town of Davidson requests permission to remove about 14,000 cubic yards of material to re-establish the shoreline and pond bottom to its original size, shape, and depth. In the EA, staff concludes that approval of the licensee's proposal would not constitute a major Federal action significantly affecting the quality of the human environment. The pond is located within the Catawba-Wateree Project in the Town of Davidson, Mecklenburg County, North Carolina.

The EA was written by staff in the Office of Hydropower Licensing, Federal Energy Regulatory Commission. Copies of the EA are available for review at the Commission's Reference and Information Center, Room 2-A, 888 First Street, N.E., Washington, D.C. 20426. Additional information can be obtained by calling the project manager, Brian Romanek at (202) 219-3076.

**Title:** Cooperative Agreements and Superfund State Contracts EPA ICR No. 1487.06, OMB Control No. 2010-0020, Expiration 02/28/98.

**Abstract:** This is a request for a renewal of an existing Information Collection Request (ICR) due to expire on 2/28/98. This ICR authorizes the collection of information under EPA's Superfund Rule (40 CFR, part 35, subpart O) that establishes the administrative requirements for the Comprehensive Environmental

Response, Compensation and Liability Act (CERCLA)—funded cooperative agreements for State, local and Federally recognized Indian tribal government response actions. The regulation also codifies the administrative requirements for Superfund State Contracts for non-State lead remedial responses. This regulation includes only those provisions as mandated by CERCLA, required by OMB Circulars, or added by EPA to ensure sound and effective financial assistance management. This SF-83 includes all of these requirements under OMB Control Number 2010-0020. The information required by this regulation will be used by EPA award officials to make assistance awards, to approve payments, and to verify that the recipient is using Federal funds appropriately to comply with OMB Circulars and in meeting the cost recovery provisions of CERCLA. An Agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations are listed in 40 CFR part 9.

The EPA would like to solicit comments to:

(iii) Enhance the quality, utility, and clarity of the information to be collected; and

(iv) Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

**Burden Statement:** The annual burden for this collection is estimated to average 10 hours per response. The estimated annual number of respondents is approximately 500. Therefore, the estimated total burden hours on respondents:  $(10 \times 500) = 5,000$ . The frequency of collection: As required. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and

maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information. Send comments regarding these matters, or any other aspect of information collection, including suggestions for reducing the burden, to the address listed above.

Dated: June 26, 1997.
