

days after the date of publication, or the first working day thereafter. Interested parties may submit case briefs and/or written comments no later than 30 days after the date of publication. Rebuttal briefs and rebuttals to written comments, limited to issues raised in such briefs or comments, may be filed no later than 37 days after the date of publication. The Department will publish the final results of this administrative review, which will include the results of its analysis of issues raised in any such written comments or at a hearing, within 120 days after the publication of this notice.

The Department shall determine, and Customs shall assess, antidumping duties on all appropriate entries. Because the inability to link sales with specific entries prevents calculation of duties on an entry-by-entry basis, we have calculated an importer specific *ad valorem* duty assessment rate for the merchandise based on the ratio of the total amount of antidumping duties calculated for the examined sales made during the POR to the total customs value of the sales used to calculate these duties. This rate will be assessed uniformly on all entries of that particular importer made during the POR. (This is equivalent to dividing the total amount of antidumping duties, which are calculated by taking the difference between NV and U.S. Price, by the total U.S. value of the sales compared, and adjusting the result by the average difference between U.S. price and customs value for all merchandise examined during the POR.) The Department will issue appraisal instructions directly to Customs. The final results of this review shall be the basis for the assessment of antidumping duties on entries of merchandise covered by the determination and for future deposits of estimated duties.

Furthermore, the following deposit requirements will be effective upon completion of the final results of these administrative reviews for all shipments of stainless steel plate from Sweden entered, or withdrawn from warehouse, for consumption on or after the publication date of the final results of these administrative reviews, as provided by section 751(a)(1) of the Act: (1) the cash deposit rate for reviewed firms will be the rate established in the final results of administrative review, except if the rate is less than 0.50 percent, and therefore, de minimis within the meaning of 19 CFR 353.6, in which case the cash deposit rate will be zero; (2) for merchandise exported by manufacturers or exporters not covered in this review but covered in the original less-than-fair-value (LTFV)

investigation or a previous review, the cash deposit will continue to be the most recent rate published in the final determination or final results for which the manufacturer or exporter received a company-specific rate; (3) if the exporter is not a firm covered in this review, or the original investigation, but the manufacturer is, the cash deposit rate will be that established for the manufacturer of the merchandise in the final results of these reviews, or the LTFV investigation; and (4) if neither the exporter nor the manufacturer is a firm covered in this or any previous review or the original fair value investigation, the cash deposit rate will be 4.46%.

This notice also serves as a preliminary reminder to importers of their responsibility under 19 CFR 353.26(b) to file a certificate regarding the reimbursement of antidumping duties prior to liquidation of the relevant entries during these review periods. Failure to comply with this requirement could result in the Secretary's presumption that reimbursement of antidumping duties occurred and the subsequent assessment of double antidumping duties.

This administrative review and notice are in accordance with section 751(a)(1) of the Act (19 U.S.C. 1675(a)(1)) and 19 CFR 353.22.

Dated: June 30, 1997.

Robert S. LaRussa,

Acting Assistant Secretary for Import Administration.

Inventions, Government Owned; Availability for Licensing

AGENCY: National Institute of Standards and Technology, Commerce.

ACTION: Notice of A Government Owned Invention Available for Licensing.

SUMMARY: The invention listed below is owned by the U.S. Government, as represented by the Department of Commerce, and is available for licensing in accordance with 35 U.S.C. 207 and 37 CFR Part 404 to achieve expeditious commercialization of results of federally funded research and development.

FOR FURTHER INFORMATION CONTACT: Technical and licensing information on this invention may be obtained by writing to: National Institute of Standards and Technology, Industrial

Partnerships Program, Building 820, Room 213, Gaithersburg, MD 20899; Fax 301-869-2751. Any request for information should include the NIST Docket No. and Title for the relevant invention as indicated below.

SUPPLEMENTARY INFORMATION: NIST may enter into a Cooperative Research and Development Agreement ("CRADA") with the licensee to perform further research on the invention for purposes of commercialization. The invention available for licensing is:

NIST Docket Number: 96-054PCT.

Title: New Non-Halogenated Fire Retardant For Commodity And Engineering Polymers.

Abstract: A fire retardant system using zirconia or zirconia combined with a boron compound significantly reduces the flammability of commodity and engineering polymers.

Dated: July 1, 1997.

Elaine Buntent-Mines,

Director, Program Office.

Announcement of Meeting of National Conference on Weights and Measures

AGENCY: National Institute of Standards and Technology, Commerce.

ACTION: Notice of meeting.

SUMMARY: Notice is hereby given that the 82nd Annual Meeting of the National Conference on Weights and Measures will be held July 20 through 24, 1997, at Swissôtel, Chicago, Illinois. The meeting is open to the public. The National Conference on Weights and Measures is an organization of weights and measures enforcement officials of the states, counties, and cities of the United States, and private sector representatives. The interim meeting of the conference, held in January, 1997, as well as the annual meeting, bring together enforcement officials, other government officials, and representatives of business, industry, trade associations, and consumer organizations to discuss subjects that relate to the field of weights and measures technology and administration.

Pursuant to (15 U.S.C. 272(B)(6)), the National Institute of Standards and Technology acts as a sponsor of the National Conference on Weights and Measures in order to promote uniformity among the States in the
