CONSUMER PRODUCT SAFETY COMMISSION

16 CFR Parts 1000 and 1017

Removal of Confidential Business Information Regulations

AGENCY: Consumer Product Safety Commission.

ACTION: Final rule.

SUMMARY: The Consumer Product Safety Commission ("Commission") is removing 16 CFR part 1017, Procedures for Safeguarding Confidential Business Information Received from EPA, because it is duplicative of EPA regulations and procedures that the Commission is obligated to follow.

EFFECTIVE DATE: July 8, 1997.

ADDRESSES: Office of the Secretary, Consumer Product Safety Commission, Washington, DC 20207.

FOR FURTHER INFORMATION CONTACT: Joseph F. Rosenthal, Office of the General Counsel, Consumer Product Safety Commission, Washington, DC 20207, telephone 301-504-0980.

SUPPLEMENTARY INFORMATION: 16 CFR part 1017 sets forth internal procedures for handling confidential business information that the Commission receives from time to time from the Environmental Protection Agency. It also sets forth internal procedures for handling chemical formulation information that the Consumer Product Safety Commission obtained from consumer product manufacturers in 1975.

The procedures described in part 1017 for handling EPA information are now obsolete. Moreover, the procedures that the Commission must follow in order to obtain confidential business information from EPA are procedures that EPA itself mandates. These procedures include an annual EPA certification of individual Commission employees as a condition of their access to EPA confidential business information.

The Commission sees no value in replicating those procedures in its own volume of regulations in the Code of Federal Regulation. Likewise, the chemical formulation information obtained in 1975 has since been destroyed and there are no plans to acquire such information in the future. Accordingly, the Commission is removing part 1017 in its entirety.

The Commission is also amending 16 CFR 1000.27 to indicate that the responsibility for handling and safeguarding confidential business information received from EPA, formerly described in 16 CFR part 1017, remains with the Commission's Directorate for Epidemiology and Health Sciences.

Since this rule relates solely to internal agency management, pursuant to 5 U.S.C. 553(b), notice and other public procedures are not required and it is effective immediately upon publication in the **Federal Register**.

Further, this action is not a rule as defined in the Regulatory Flexibility Act, 5 U.S.C. 601-612, and, thus, is exempt from the provisions of the Act. This action will have no effect on the environment.
