

programs generally may reduce, not increase, compliance costs for the private sector.

The requirements of section 203 of UMRA also do not apply to today's action. Before EPA establishes any regulatory requirements that may significantly or uniquely affect small governments, section 203 of the UMRA requires EPA to develop a small government agency plan. This rule contains no regulatory requirements that might significantly or uniquely affect small governments. The Agency recognizes that although small governments may own and/or operate USTs, they are already subject to the regulatory requirements under existing state law which are being authorized by EPA, and, thus, are not subject to any additional significant or unique requirements by virtue of this program approval.

Certification Under the Regulatory Flexibility Act

EPA has determined that this authorization will not have a significant economic impact on a substantial number of small entities. Such small entities which own and/or operate USTs are already subject to the regulatory requirements under existing State law which are being authorized by EPA. EPA's authorization does not impose any additional burdens on these small entities. This is because EPA's authorization would simply result in an administrative change, rather than a change in the substantive requirements imposed on these small entities.

Therefore, EPA provides the following certification under the Regulatory Flexibility Act, as amended by the Small Business Regulatory Enforcement Fairness Act. Pursuant to the provision at 5 U.S.C. 605(b), I hereby certify that this authorization will not have a significant economic impact on a substantial number of small entities. This authorization approves regulatory requirements under existing State law to which small entities are already subject. It does not impose any new burdens on small entities. This rule, therefore, does not require a regulatory flexibility analysis.

Submission to Congress and the General Accounting Office

Under 5 U.S.C. 801(a)(1)(A) as added by the Small Business Regulatory Enforcement Fairness Act of 1996, EPA submitted a report containing this rule and other required information to the U.S. Senate, the U.S. House of Representatives and the Comptroller General of the General Accounting Office prior to publication of the rule in

today's **Federal Register**. This rule is not a "major rule" as defined by 5 U.S.C. 804(2).

BILLING CODE 6560-50-P

FEDERAL COMMUNICATIONS COMMISSION

47 CFR Part 73

[MM Docket No. 97-48; RM-8994]

Radio Broadcasting Services; Earlville, IL

AGENCY: Federal Communications Commission.

ACTION: Final rule.

SUMMARY: The Commission, at the request of Second Congregational Services, allots Channel 275A at Earlville, Illinois, as the community's first local aural transmission service. See 62 FR 6928, February 14, 1997. Channel 275A can be allotted at Earlville in compliance with the Commission's minimum distance separation requirements with a site restriction of 13.4 kilometers (8.3 miles) northwest to accommodate petitioner's requested site. The coordinates for Channel 275A at Earlville are North Latitude 41-38-55 and West Longitude 89-03-51. With this action, this proceeding is terminated.

DATES: Effective August 11, 1997. The window period for filing applications for Channel 275A at Earlville, Illinois, will open on August 11, 1997, and close on September 11, 1997.
