

Under Sections 202, 203, and 205 of the Unfunded Mandates Reform Act of 1995 (Unfunded Mandates Act), signed into law on March 22, 1995, the EPA must undertake various actions in association with proposed or final rules that include a Federal mandate that may result in estimated costs of \$100 million or more to the private sector, or to State, local, or Tribal governments in the aggregate.

Through submission of the request for redesignation, the Tribal government has elected to adopt an option allowed them under Section 164 of the Act. The redesignation being proposed for approval in this action may bind State, local, and Tribal governments to perform certain actions and also may ultimately lead to the private sector being required to perform certain duties. However, EPA has also determined that this action does not include a mandate that may result in estimated costs of \$100 million or more to State, local, or Tribal governments in the aggregate or to the private sector.
