CNG Transmission Corporation; Notice of Proposed Changes in FERC Gas Tariff

July 3, 1997.

Take notice that on July 1, 1997, CNG Transmission Corporation (CNG) tendered for filing as part of its FERC Gas Tariff, Second Revised Volume No. 1, certain revised tariff sheets listed in Appendix A to the filing and certain pro forma tariff sheets listed in Appendix B to the filing. CNG states that the principal factors supporting the adjustment in rates are an increase in rate base due to additional plant investment, increases in operation and maintenance expenses, an increase in the return allowance on the company's rate base, an increase in the depreciation rate for the company's computers, and increases in other taxes.

CNG states that its filing is an integrated package of tariff changes, service enhancements, and pricing mechanisms that are designed to better serve CNG's customers in a competitive marketplace.

CNG proposes prospectively to implement market based pricing on its
