Chock Full O' Nuts, Linden, New Jersey; Notice of Revised Determination on Reopening

At the request of the State Agency, the Department reviewed the Termination of Investigation regarding worker eligibility to apply for trade adjustment assistance. The termination notice applicable to workers of the subject firm located in Linden, New Jersey, was signed on April 1, 1997 and published in the **Federal Register** on April 15, 1997 (62 FR 18364).

Workers at Chock Full O' Nuts, Linden, New Jersey produced instant coffee and were covered under a

previous worker certification, TA-W-29,923, which expired September 21, 1996. The basis for the certification was an increase in company imports.

The company reports that although all production workers at the Linden plant were separated from employment when it closed in 1994, supervisory personnel continued employment to assist with the subject firm's transition to a contract relationship with their Mexican supplier. All layoffs at Linden were completed December 31, 1996.

Conclusion

After careful consideration of the new facts obtained on reopening, it is concluded that increased imports of instant coffee contributed importantly to the decline in sales and to the total or partial separation of workers of the subject firm. In accordance with the provisions of the Trade Act of 1974, I make the following revised determination:

"All workers of Chock Full O' Nuts, Linden, New Jersey who became totally or partially separated from employment on or after September 22, 1996, are eligible to apply for adjustment assistance under Section 223 of the Trade Act of 1974."

Signed at Washington, DC this 20th day of June 1997.

Russell T. Kile,
Program Manager, Policy and Reemployment Services, Office of Trade Adjustment Assistance.
