Summary of Order

1. Kaiser Foundation Hospitals and Health Plan, Inc. (Kaiser), filed a Petition for Permanent Waiver asking the Commission to grandfather Kaiser's existing Special Emergency Radio Service (SERS) wide-area, paging system that operates on 453.025 MHz from eight stations in the Southern California metropolitan area.

2. On January 14, 1993, the Commission established the Emergency Medical Radio Service (EMRS) as a new Public Safety Radio Service under Part 90 of the Commission's Rules, 47 CFR Part 90. See *Report and Order*, 8 FCC Rcd 1454 (1993). Of the frequencies reallocated for EMRS use, four were previously assigned for one-way paging operations by entities eligible in the SERS. The four frequencies reallocated are as follows: 453.025 MHz, 453.075 MHz, 453.125 MHz, 453.175 MHz.

3. The *Report and Order* provided a waiver process for grandfathering existing one-way medical paging systems on the subject frequencies. Pursuant to this approach, if a licensee currently operating on a one-way paging channel demonstrates that there is adequate spectrum for EMRS transmissions in its area of operation, or that relocation of its medical paging system would not serve the public interest, or relocation would cause significant disruption of public safety communications, its system would be grandfathered by waiver. Otherwise, licensees operating on these 453 MHz frequencies are required to cease operations after January 14, 1998. In its Petition for Waiver, Kaiser seeks to demonstrate that it has met each of the three criterion justifying permanent waiver of the Commission's Rules.

Federal Communications Commission.

David E. Horowitz,

Chief, Public Safety and Private Wireless Division, Wireless Telecommunications Bureau.
