[Docket No. CP97-614-000]

#### Northwest Pipeline Corporation; Notice of Request Under Blanket Authorization

July 9, 1997.

Take notice that on July 1, 1997, Northwest Pipeline Corporation (Northwest), P.O. Box 58900, Salt Lake City, Utah 84158-0900, filed in Docket No. CP97-614-000 a request pursuant to Sections 157.205, 157.211 and 157.216 of the Commission's Regulations under the Natural Gas Act (18 CFR 157.205, 157.211, 157.216) for authorization to upgrade a meter station and partially abandon certain existing facilities located in Twin Falls County, Idaho, under Northwest's blanket certificate issued in Docket No. CP82-433-000, pursuant to Section 7(c) of the Natural Gas Act, all as more fully set forth in the request that is on file with the Commission and open to public inspection.

Northwest proposes to upgrade the Buhl Meter Station located in Twin

Falls County, Idaho, by removing two of the existing 2-inch monitor regulators and appurtenances and replacing them with 2-inch pipe spools and by uprating the station MAOP from 325 psig to 720 psig. Northwest states this is to accommodate a request by Intermountain Gas Company (Intermountain) for increased delivery capabilities at this point for services under authorized firm transportation agreements. Northwest asserts the MAOP uprating will be accomplished by isolating and retesting the existing header and station piping downstream of the regulators. Northwest declares as a result of this proposed upgrade, the maximum design delivery capacity of the meter station will increase from approximately 4,857 Dth per day at 380 psig to approximately 6,939 Dth per day at 380 psig, as limited by the regulators.

Northwest states the total cost of the proposed facility upgrade at the Buhl Meter Station is estimated to be approximately \$10,400, comprised of \$10,300 for installation of the new facilities and uprating of existing MAOP, plus \$100 for removal of the old facilities. Northwest asserts Intermountain will reimburse them for all actual costs associated with the upgrade of the Buhl Meter Station, including all applicable federal and state income tax liabilities.

Any person or the Commission's staff may, within 45 days after issuance of the instant notice by the Commission, file pursuant to Rule 214 of the Commission's Procedural Rules (18 CFR 385.214) a motion to intervene or notice of intervention and pursuant to Section 157.205 of the Regulations under the Natural Gas Act (18 CFR 157.205) a protest to the request. If no protest is filed within the time allowed therefor, the proposed activity shall be deemed to be authorized effective the day after the time allowed for filing a protest. If a protest is filed and not withdrawn within 30 days after the time allowed for filing a protest, the instant request shall be treated as an application for authorization pursuant to Section 7 of the Natural Gas Act.
