

participate in the school lunch program under this Act, but which receive commodities made available by the Secretary for use by such schools in nonprofit lunch programs."

For the 1998 school year, commodity only schools shall be eligible to receive donated food assistance valued at 33.00 cents for each paid lunch served, and 33.25 cents for each free and reduced price lunch served. This amount is based on the sum of the section 6(e) level of assistance announced in this notice and the adjusted section 4 minimum national average payment factor for school year 1998. The section 4 factor for commodity only schools does not include the two cents per lunch increase for schools where 60 percent of the lunches served in the school lunch program in the second preceding school year were served free or at reduced prices, because that increase is applicable only to schools participating in the NSLP.

Section 103 of the Healthy Meals for Healthy Americans Act of 1994, (Public Law 103-448) amended section 6 of the NSL Act by adding a new paragraph (g), which mandates that not less than 12 percent of the assistance provided under sections 4, 6, and 11 of the Act be in the form of commodity assistance, including cash in lieu of commodities and administrative costs for commodity procurement of commodities under section 6. In school year 1997, the announced rate generated commodity assistance at a level that exceeded the 12-percent mandate. In the event that the rate of \$.1500 announced in this Notice fails to meet the 12-percent requirement, the rate will be retroactively adjusted upward, and the additional commodities will be delivered to States during the first quarter of the next school year.

SUPPLEMENTARY INFORMATION:

I. Abstract

The International Trade Administration, International Buyer Program (IBP), encourages international buyers to attend selected domestic trade shows in industries with high export potential, and facilitates contact between U.S. exhibitors and foreign visitors. The program's success has been demonstrated by the substantial increase in the number of foreign visitors attending these selected shows as compared to the attendance when not supported by the program. The application is the vehicle used by a potential show organizer to provide his/her (1) experience, (2) ability to meet the special conditions of the IBP, and (3) strategy for promoting the domestic trade show. The exhibitor data form is completed by U.S. exhibitors participating in an IBP domestic trade show and used to list the firm and its product in an Export Interest Directory
