SUPPLEMENTARY INFORMATION:

I. Background

On May 29, 1971 (36 FR 10466), OSHA adopted some of the existing Federal standards and national consensus standards as OSHA standards under the procedures described in

section 6(a) of the Occupational Safety and Health Act (OSH Act) (29 U.S.C. 655, *et al.*). Section 6(a) permitted OSHA to adopt, without any established Federal standard or national consensus standard. These existing Federal standards and national consensus standards became OSHA standards simply by their publication in the **Federal Register**.

One of the consensus standards that was adopted under the 6(a) procedure was the American National Standards Institute (ANSI) A92.2-1969, American National Standard for Vehicle-Mounted Elevating and Rotating Aerial Devices. Included in the consensus standard, and consequently the OSHA standard, is a requirement that when these devices are "field modified" for uses other than those intended by the manufacturer, that the modification must be certified in writing by the manufacturer or by an equivalent entity, such as a nationally recognized testing laboratory, to be in conformity with all applicable provision of ANSI A92.2-1969 and the OSHA standard, and to be at least as safe as the equipment was before modification.

II. Current Actions

This notice requests an extension of the current Office of Management and Budget (OMB) approval of the inspection certification requirement contained in 29 CFR 1910.67(b)(2)—Aerial Lifts (currently approved under OMB Control No. 1218-0210).

DEPARTMENT OF LABOR

Occupational Safety and Health Administration

[Docket No. ICR 97-5]

Agency Information Collection Activities: Proposed Collection; Comment Request; Respiratory Protection

ACTION: Notice.

SUMMARY: The Department of Labor, as part of its continuing effort to reduce paperwork and respondent burden, conducts a preclearance consultation program to provide the general public and Federal agencies with an opportunity to comment on proposed and/or continuing collections of information in accordance with the Paperwork Reduction Act of 1995 (PRA95) (44 U.S.C. 3506(c)(2)(A)). This program helps to ensure that requested data can be provided in the desired format, reporting burden (time and financial resources) is minimized, collection instruments are clearly understood, and the impact of collection requirements on respondents can be properly assessed. Currently the Occupational Safety and Health Administration is soliciting comments concerning the proposed extension of the information collection request for the Respiratory Protection standard 29 CFR 1910.134. A copy of the proposed information collection request (ICR) can be obtained by contacting the employee listed below in the addressee section of this notice. The Department of Labor is particularly interested in comments which:

- Evaluate whether the proposed collection of information for the proper performance of the functions of the agency, including whether the information will have practical utility;
- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
 - Enhance the quality, utility, and clarity of the information to be collected; and
 - Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection technique or other forms of information technology, e.g., permitting electronic submissions of responses.

DATES: Written comments must be submitted by September 15, 1997.
