BILLING CODE 4150-04-M

DEPARTMENT OF HEALTH AND HUMAN SERVICES

National Committee on Vital and Health Statistics: Meetings

Pursuant to the Federal Advisory Committee Act, the Department of Health and Human Services announces the following advisory committee meetings.

Name: National Committee on Vital and Health Statistics (NCVHS), Subcommittee on Health Data Needs, Standards, and Security. Workgroup on Data Standards and Security.

Times and Dates: 9:00 a.m.–4:30 p.m., August 5, 1997; 8:30 a.m.–4:30 p.m., August 6, 1997; 8:30 a.m.–4:00 p.m., August 7, 1997.

Place: Capital Hilton, 16th and K Streets, NW., Washington, DC 20201.

Status: Open.

Purpose: Under the Administrative Simplification provisions of P.L. 104-191, the Health Insurance Portability and

Accountability Act of 1996 (HIPAA), the Secretary of Health and Human Services is required to adopt standards for specified transactions to enable health information to be exchanged electronically. The law requires that, within 24 months of adoption, all health plans, health care clearinghouses, and health care providers who choose to conduct these transactions electronically must comply with these standards. The law also requires the Secretary to adopt a number of supporting standards including standards for code sets and classification systems and standards for security to protect health information. The Secretary is required to consult with the National Committee on Vital and Health Statistics (NCVHS) in complying with these provisions. The NCVHS is the Department's federal advisory committee on health data, privacy and health information policy.

To assist in the development of the NCVHS recommendations to HHS, the NCVHS Subcommittee on Health Data Needs, Standards, and Security has been holding a series of public meetings to obtain the views, perspectives and concerns of interested and affected parties.

On August 5, and August 6, 1997, the Subcommittee's Working Group on Data Standards and Security will hold a public meeting at which they will receive input from the health care industry on recommendations for security standards. The Subcommittee is interested in receiving testimony that will provide an understanding of the foundation of information security in health care as well as the issues, barriers, and challenges that face the industry. Representatives of the health care industry—health care providers, payers, professional associations, vendors, and standards development organizations—are being invited to testify and respond to the Subcommittee's question on security issues in the implementation of the administrative simplification provisions of P.L. 104-191. The industry representatives are being asked to address the questions (below) in writing, to make brief oral presentations of their answers, and to answer further questions from the Subcommittee. Other organizations that would like to submit written statements on these issues are invited to do so.

On August 7, 1997, the Subcommittee will discuss issues, recommendations, and its proposed workplan for the supporting standards for the nine financial and administrative health care transactions. The full NCVHS has already forwarded its recommendations on the architecture for these nine transactions to the Secretary.

Questions to be Addressed: Whereas not all questions are applicable to all participants or their organizations, the following set of questions illustrates the scope and complexity of the security issues to be addressed by the Committee.

Policies and Procedures

- What policies and procedures should be employed to safeguard information?
- How should these policies and procedures be communicated to internal and external users as well as consumers?
- How frequently are policies reviewed?
