

POSTAL RATE COMMISSION

[Docket No. R97-1; Order No. 1186]

Notice of The U.S. Postal Service's Filing of Proposed Postal Rate, Fee, and Classification Changes and Order Instituting Proceedings

Issued July 11, 1997.

Before Commissioners: Edward J. Gleiman, Chairman; H. Edward Quick, Jr., Vice Chairman; George W. Haley; W.H. "Trey" LeBlanc III

I. Notice of the Service's Filing

On July 10, 1997, the United States Postal Service, acting under sections 3622 and 3623 of the Postal Reorganization Act (39 U.S.C. §§ 3622, 3623), filed a Request with the Postal Rate Commission for a recommended decision on proposed changes in domestic postage rates and fees and in certain mail classifications. The proposed rate and fee changes affect all classes of mail. The Request maintains that without the rate and fee changes, the Postal Service would incur a revenue deficiency of approximately \$2.4 billion in the proposed test year (1998), in contravention of 39 U.S.C. § 3621. The Request states that proposed rates will generate a revenue surplus of approximately \$41.9 million.

An overview of the Service's filing follows. The entire contents of the Service's filing, along with supporting documentation, is available for public inspection in the Commission's docket section. See Part II.F. for information about Docket Room operations.

First-Class Mail rates. The Service's Request includes a proposal to increase the price of the First-Class stamp by one cent, from 32 cents to 33 cents, and to hold the rate for each additional ounce of First-Class Mail at its current price of 23 cents per ounce. Basic postage for a card changes by one cent, increasing from 20 to 21 cents. In addition, the Service is proposing a prepaid reply mail category, at a discounted rate of 30 cents. The Service states that this discounted rate is intended to benefit the public served by large-volume business mailers, such as utility companies or credit card companies. Additional information about this proposal, as well as about rates affecting mailers using other classes of mail, appears later in this Notice.

Major classification changes; rate design In addition to rate and fee changes, the Service is also proposing changes in classification and rate design. Both types of changes can have a significant effect on postage and mailing requirements. A summary of the Service's proposed classification

changes follows. To obtain additional details, persons interested in rate design changes should consult the Service's filing and the proposed rate schedules which appear as Attachment B to this notice.

First-Class Mail classification changes. The Service proposes three changes in the structure of First-Class Mail. One change entails the introduction of Prepaid Reply Mail and Qualified Business Reply Mail postage rates for both letters and cards, at the discounted rate of 30 cents for letters and 18 cents for cards. Another change involves the elimination of the heavy-piece discount, which currently applies to presort mail weighing more than two ounces. The third change is the introduction of a Hazardous Medical Materials surcharge.

The Service states that with Prepaid Reply Mail, businesses or other organizations can provide their correspondents with Postal Service-approved, postage-paid courtesy envelopes or cards that will enable the correspondents to return mail, such as bill payments, without affixing postage. Postage and a monthly administration fee for this mail must be prepaid by the envelope provider. Qualified Business Reply Mail, with proposed rates identical to Postage Reply Mail (PRM), differs in terms of postage accounting and auditing. However, as with PRM, the provider of the envelope would pay the postage and fees under the Service's proposal.

Periodicals classification changes. In the Periodicals class (formerly referred to as second-class mail), the Postal Service proposes realignment of the existing 3/5-digit rate category in each of the subclasses (Regular, Within County, Nonprofit and Classroom). Specifically, the Service proposes splitting the category that currently includes both 3- and 5-digit mail into separate 3-digit and 5-digit categories. Thus, all Periodicals subclasses will have 3-digit piece rates and 5-digit piece rates for both letters and flats for automation compatible mail. The proposal also entails including pieces sorted to non-unique 3-digit ZIP codes in the proposed 3-digit classification. Currently, non-unique 3-digit ZIP Codes are included in the basic (required) presort category.

Standard Mail classification changes. In Standard Mail (formerly third-class and fourth-class mail), the Service proposes the elimination of the Standard Mail (A) Single-Piece subclass and the introduction of a Residual Shape surcharge applicable to pieces that are not letter or flat shaped. See generally USPS-T-36 at 1-2. For

Standard Mail (B), the Service proposes a number of new parcel discounts and expands weight and size limits.

Special Services classification changes. The Service proposes classification changes affecting registered mail, business reply mail, and the newly-proposed prepaid reply mail. The registered mail proposal would limit uninsured registered mail to merchandise of no declared value. The Service also proposes a bulk insurance discount of 40 cents for bulk mailers who process mailing records electronically. Classification changes affecting business reply mail include adding an annual permit fee and a monthly accounting fee for permit reply mail. The introduction of prepaid reply mail was discussed earlier in this connection with the Service's proposed First-Class Mail rates. In a separate but related matter, the Service also proposes restructuring the DMCS language for special services. USPS-T-39 at 102. The effect of this restructuring, which includes renumbering and numerous non-substantive editorial changes, is shown in Attachment A.

Other changes. Among other things, the Service is proposing delivery confirmation services for Priority Mail and for Standard Mail (B). In Standard Mail (A) the Service's proposal reduces pound rates for various categories of advertising mail. This proposal also raises substantially the Enhanced Carrier Route Basic Letter rate.

Costing. The Service's Request is based, in part, on costing approaches that differ significantly from previous approaches. These changes affect, among other things, the analysis and attribution of mail processing costs, carrier costs, and transportation costs. The overall effect of these changes is that the levels of attribution from which mark-ups are calculated are considerably lower than the Service proposed in Docket No. R94-1 or the Commission used in its recommendation in that proceeding.

Contents of the Service's filing. The Service's filing includes its formal Request, seven attachments (A-G) and 42 pieces of testimony, presented by 40 witnesses. Testimony is supported, in many instances, with exhibits, workpapers, and library references. Attachment A identifies requested changes in the DMCS. Attachment B includes a comparison of current and proposed rates and fees. Attachment C, in response to rule 54(b)(2), specifies the rules, regulations and practices that establish standards of service and conditions of mailability. Attachment D includes the certification, required by rule 54(p), concerning the accuracy of

cost statements and other documentation submitted with the Request. Attachment E contains audited financial statements. Attachment F provides an index identifying witnesses by name, testimony, exhibits and workpapers by number, and the name and telephone number of the witness's attorney. Attachment G contains the Service's Compliance Statement. This statement addresses pertinent provisions of Commission rules of practice 54 and 64. It also refers to a separate notice that discusses several matters concerning the alternate cost presentation required under the rule. See Notice of the Postal Service Concerning Provision of Information Pursuant to Rule 54(a)(1) (July 10, 1997), citing (USPS-LR-H-196, "Rule 54(a)(1) Alternate Commission Cost Presentation (Base Year))."

Rate and fee increases. The approximate average percentage increases proposed by the Postal Service for the major categories of mail service follow. Since the percentages shown are averages, increases for individual mail pieces may differ substantially.

Requested Classification Changes. The Postal Service's Request asks the Commission to recommend certain classification changes. These changes alter the Domestic Mail Classification Schedule (DMCS) and appear in Attachment A. The Service identifies recent amendments to the current text of the DMCS, and indicates that these amendments, along with the DMCS provisions codified at 39 CFR Part 3001, subpart C, appendix A, are incorporated by reference in its Request. See generally Attachment A at 1. In addition, the Service notes that it proposes renumbering the classification schedules for special services. A table identifying the changes appears in Attachment A at 2.

Availability of the Service's filing. The Postal Service's Request, along with supporting documentation, is available for public inspection in the Commission's docket section. See Part II. F for information about Docket Room hours.

II. Order Instituting Proceedings

The Commission hereby institutes proceedings to consider the Postal Service's Request, which has been assigned Docket No. R97-1. Details regarding the conduct of this proceeding follow. The Commission will issue additional notices regarding this proceeding as needed.

A. Nature of proceedings and possibility that the Commission's recommendation may differ from the Service's proposed changes. Proceedings in this docket will concern, in the first instance, the specific changes in current postal rates, fees and mail classification provisions proposed by the Postal Service in its Request. The Commission will also conduct public hearings to receive evidence sponsored by other interested parties, including the Commission's Office of the Consumer Advocate, that responds to the Postal Service's proposed changes and the evidence it offers in support of those changes. These presentations may include alternative rate, fee and mail classification proposals.

After the conclusion of hearings and the receipt of briefs from the Postal Service and other parties, the Commission will consider all proposals advanced and arguments made in conducting its deliberations in the case. Depending upon its assessment of the public policies and statutory factors mandated by the Postal Reorganization Act, the Commission may or may not recommend the exact array of rate, fee and mail classification changes requested by the Postal Service, or proposed in the direct cases of other participants. In order to accommodate applicable statutory considerations, while at the same time observing the technical constraints of setting rates and fees for all postal services, the Commission may recommend a schedule of postal rates and fees that will differ appreciably from those requested by the Postal Service or contained in the parties' alternative proposals. Similarly, the Commission may recommend mail classification changes different from those proposed by the Postal Service and other parties, or may decline to recommend proposed classification changes but address their objectives through other recommended adjustments in rates or fees for existing mail categories.

B. Participation: full, limited and commenter status. There are three main types of participation in Commission proceedings: full, limited or commenter status. Formal intervention in hearings on the Postal Service request generally takes the form of full intervention. However, the status of limited participant is also available under certain circumstances. Persons intending to seek either full or limited status must file a notice of intervention that complies with the Commission rules. These rules require certain information and representations, such as whether the intervenor intends to actively participate in the proceeding. Commenter status is available to those wishing to express their views informally. This status does not require a notice of intervention or compliance with the Commission's evidentiary rules. Other distinctions among the forms of participation are explained in Commission rules 20, 20a and 20b. (39 CFR 3001.20, 20a and 20b) Questions about the interpretation and application of these rules should be directed to the Commission's Office of Legal Advisor at (202) 789-6820.

Notices of intervention should be sent to the attention of Margaret P. Crenshaw, Secretary of the Commission, 1333 H Street, NW, Suite 300, Washington, DC 20268-0001, and are to be filed on or before August 6, 1997. In addition, intervenors are requested to provide a telephone number, facsimile number, and e-mail address if available.

C. Representation of the general public. The Commission designates W. Gail Willette, Director of the Commission's Office of the Consumer Advocate (OCA), as the representative of the general public in this proceeding. Ms. Willette shall direct the activities of Commission personnel assigned to assist her and, at an appropriate time, provide the names of these employees for the record. Neither she nor the assigned personnel shall participate in or advise as to any Commission decision in this proceeding, other than in their designated capacity. Parties shall serve the OCA separately with three copies of all filings in addition to, and at the same time as they effect service on the Commission.

D. Scheduling: Hearing schedule and date for prehearing conference procedural schedule. The Commission intends to conduct this case with the utmost expedition consistent with the due process rights of all participants. Upon intervention, participants may submit formal discovery or contact the Postal Service to request an informal technical conference. Attachment C to this Notice and Order sets out the procedural schedule for the conduct of this case. Participants should address requests to adjust this schedule to the Presiding Officer.

Prehearing conference. An initial prehearing conference will be held on July 30, 1997, for the purpose of facilitating the conduct of this case. Participants proposing to raise topics for discussion at the prehearing conference should file notice to that effect on or before July 25, 1997. In accordance with the Commission's goal of expeditious consideration, the Commission will conduct all prehearing conferences and hearings en banc (39 CFR 3001.30(b)). Additional prehearing conferences will be scheduled if needed. Unless otherwise indicated, all conferences and hearings will begin at 9:30 a.m. in the Postal Rate Commission's hearing room, 1333 H Street NW, Suite 300, Washington, DC 20268-0001. Hearings will be conducted on the record and transcribed by an official reporter, unless the presiding officer determines otherwise.

E. Special rules of practice. The Special Rules of Practice for this case are set forth in Attachment D. These Special Rules are identical to the special rules currently in use in Docket No. MC97-4. Participants should address requests to adjust these rules to the Presiding Officer.

F. Docket Room Operations. Documents may be filed with the Commission's docket section Monday through Friday between 8 a.m. and 5 p.m. Questions about docket room operations should be directed to Ms. Peggie Brown (at 202-789-6847) or Ms. Joyce Taylor (at 202-789-6846).

It is ordered:

1. The Commission will sit en banc in the above-captioned proceeding.

2. Notices of intervention shall be filed by August 6, 1997.

3. W. Gail Willette, Director of the Office of the Consumer Advocate, is designated to represent the interests of the general public in this proceeding.

4. A prehearing conference in this proceeding will be held July 30, 1997. The hearing will begin at 9:30 a.m. in the Postal Rate Commission hearing room, 1333 H Street NW, Suite 300, Washington, DC 20268-0001.

5. Topics for discussion at the prehearing conference should be submitted on or before July 25, 1997.

6. The Procedural Schedule for the conduct of this proceeding is set out in Attachment C.

7. These proceedings shall be conducted pursuant to special rules of practice set out in Attachment D.

8. The Secretary shall cause this Notice and Order to be published in the **Federal Register**.

By the Commission.

Margaret P. Crenshaw,
Secretary.

PERIODICALS CLASSIFICATION SCHEDULE

410 DEFINITION

411 General Requirements

411.1 Definition. A publication may qualify for mailing under the Periodicals Classification Schedule if it meets all of the requirements in sections 411.2 through 411.5 and the requirements for one of the qualification categories in sections 412 through 415. Eligibility for specific Periodicals rates is prescribed in section 420.

411.2 Periodicals. Periodicals class mail is mailable matter consisting of newspapers and other periodical publications. The term "periodical publications" includes, but is not limited to:

a. Any catalog or other course listing including mail announcements of legal texts which are part of post-bar admission education issued by any institution of higher education or by a nonprofit organization engaged in continuing legal education.

b. Any looseleaf page or report (including any index, instruction for filing, table, or sectional identifier which is an integral part of such report) which is designed as part of a looseleaf reporting service concerning developments in the law or public policy.

411.3 Issuance

411.31 Regular Issuance. Periodicals class mail must be regularly issued at stated intervals at least four times a year, bear a date of issue, and be numbered consecutively.

411.32 Separate Publication. For purposes of determining Periodicals rate eligibility, an "issue" of a newspaper or other periodical shall be deemed to be a separate publication when the following conditions exist:

a. The issue is published at a regular frequency more often than once a month either on (1) the same day as another regular issue of the same publication; or (2) on a day different from regular issues of the same publication, and

b. More than 10 percent of the total number of copies of the issue is distributed on a regular basis to recipients who do not subscribe to it or request it, and

c. The number of copies of the issue distributed to nonsubscribers or nonrequesters is more than twice the number of copies of any other issue distributed to nonsubscribers or nonrequesters on that same day, or, if no other issue that day, any other issue distributed during the same period. "During the same period" shall be defined as the periods of time ensuing between the distribution of each of the issues whose eligibility is being examined. Such separate publications must independently meet the qualifications for Periodicals eligibility.

411.4 Office of Publication. Periodicals class mail must have a known office of publication. A known office of publication is a public office where business of the publication is transacted during the usual business hours. The office must be maintained where the publication is authorized original entry.

- 411.5 Printed Sheets. Periodicals class mail must be formed of printed sheets. It may not be reproduced by stencil, mimeograph, or hectograph processes, or reproduced in imitation of typewriting. Reproduction by any other printing process is permissible. Any style of type may be used.
- 412 General Publications
- 412.1 Definition. To qualify as a General Publication, Periodicals class mail must meet the requirements in section 411 and in sections 412.2 through 412.4.
- 412.2 Dissemination of Information. A General Publication must be originated and published for the purpose of disseminating information of a public character, or devoted to literature, the sciences, art, or some special industry.
- 412.3 Paid Circulation
- 412.31 Total Distribution. A General Publication must be designed primarily for paid circulation. At least 50 percent or more of the copies of the publication must be distributed to persons who have paid above a nominal rate.
- 412.32 List of Subscribers. A General Publication must be distributed to a legitimate list of persons who have subscribed by paying or promising to pay at a rate above nominal for copies to be received during a stated time. Copies mailed to persons who are not on a legitimate list of subscribers are nonsubscriber copies.
- 412.33 Nominal Rates. As used in section 412.31, nominal rate means:
- A token subscription price that is so low that it cannot be considered a material consideration;
 - A reduction to the subscriber, under a premium offer or any other arrangements, of more than 50 percent of the amount charged at the basic annual rate for a subscriber to receive one copy of each issue published during the subscription period. The value of a premium is considered to be its actual cost to the publishers, the recognized retail value, or the represented value, whichever is highest.
- 412.34 Nonsubscriber Copies
- 412.341 Up to Ten Percent. Nonsubscriber copies, including sample and complimentary copies, mailed at any time during the calendar year up to and including 10 percent of the total number of copies mailed to subscribers during the calendar year are mailable at the rates that apply to subscriber copies provided that the nonsubscriber copies would have been eligible for those rates if mailed to subscribers.
- 412.342 Over Ten Percent. Nonsubscriber copies, including sample and complimentary copies, mailed at any time during the calendar year, in excess of 10 percent of the total number of copies mailed to subscribers during the calendar year which are presorted and commingled with subscriber copies are charged the applicable rates for Regular Periodicals. The 10 percent limitation for a publication is based on the total number of all copies of that publication mailed to subscribers during the calendar year.
- 412.35 Advertiser's Proof Copies. One complete copy of each issue of a General Publication may be mailed to each advertiser in that issue as an advertiser's proof copy at the rates that apply to subscriber copies, whether the advertiser's proof copy is mailed to the advertiser directly or, instead, to an advertising representative or agent of the publication. These copies count as subscriber copies.
- 412.36 Expired Subscriptions. For six months after a subscription has expired, copies of a General Publication may be mailed to a former subscriber at the rates that apply to copies mailed to subscribers, if the publisher has attempted during that six months to obtain payment, or a promise to pay, for renewal. These copies do not count as subscriber copies.
- 412.4 Advertising Purposes
- A General Publication may not be designed primarily for advertising purposes. A publication is "designed primarily for advertising purposes" if it:
- Has advertising in excess of 75 percent in more than one-half of its issues during any 12-month period;
 - Is owned or controlled by individuals or business concerns and conducted as an auxiliary to and essentially for the advancement of the main business or calling of those who own or control it;
 - Consists principally of advertising and editorial write-ups of the advertisers;
 - Consists principally of advertising and has only a token list of subscribers, the circulation being mainly free;

- 413.4 Circulated to Requesters
- 413.41 List of Requesters. It must have a legitimate list of persons who request the publication, and 50 percent or more of the copies of the publication must be distributed to persons making such requests. Subscription copies paid for or promised to be paid for, including those at or below a nominal rate may be included in the determination of whether the 50 percent request requirement is met. Persons will not be deemed to have requested the publication if their request is induced by a premium offer or by receipt of material consideration, provided that mere receipt of the publication is not material consideration.
- 413.42 Nonrequester Copies
- 413.421 Up to Ten Percent. Nonrequester copies, including sample and complimentary copies, mailed at any time during the calendar year up to and including 10 percent of the total number of copies mailed to requesters during the calendar year are mailable at the rates that apply to requester copies provided that the nonrequester copies would have been eligible for those rates if mailed to requesters.

4000 POSTAL ZONES

4010 Geographic Units of Area

In the determination of postal zones, the earth is considered to be divided into units of area thirty minutes square, identical with a quarter of the area formed by the intersecting parallels of latitude and meridians of longitude. The distance between these units of area is the basis of the postal zones.

4020 Measurement of Zone Distances

The distance upon which zones are based shall be measured from the center of the unit of area containing the dispatching sectional center facility or multi-ZIP coded post office not serviced by a sectional center facility. A post office of mailing and a post office of delivery shall have the same zone relationship as their respective sectional center facilities or multi-ZIP coded post offices, but this shall not cause two post offices to be regarded as within the same local zone.

4030 Definition of Zones

4031 Local Zone. The local zone applies to mail mailed at any post office for delivery at that office; at any city letter carrier office or at any point within its delivery limits for delivery by carriers from that office; at any office from which a rural route starts for delivery on the same route; and on a rural route for delivery at the office from which the route starts or on any rural route starting from that office.

4032 First Zone. The first zone includes all territory within the quadrangle of entry in conjunction with every contiguous quadrangle, representing an area having a mean radial distance of approximately 50 miles from the center of a given unit of area. The first zone also applies to mail between two post offices in the same sectional center.

4033 Second Zone. The second zone includes all units of area outside the first zone lying in whole or in part within a radius of approximately 150 miles from the center of a given unit of area.

4034 Third Zone. The third zone includes all units of area outside the second zone lying in whole or in part within a radius of approximately 300 miles from the center of a given unit of area.

4035 Fourth Zone. The fourth zone includes all units of area outside the third zone lying in whole or in part within a radius approximately 600 miles from the center of a given unit of area.

4036 Fifth Zone. The fifth zone includes all units of area outside the fourth zone lying in whole or in part within a radius of approximately 1,000 miles from the center of a given unit of area.

4037 Sixth Zone. The sixth zone includes all units of area outside the fifth zone lying in whole or in part within a radius of approximately 1,400 miles from the center of a given unit of area.

4038 Seventh Zone. The seventh zone includes all units of area outside the sixth zone lying in whole or in part within a radius of approximately 1,800 miles from the center of a given unit of area.

4039 Eighth Zone. The eighth zone includes all units of area outside the seventh zone.

4040 Zoned Rates

Except as provided in section 4050, rates according to zone apply for zone-rated mail sent between Postal Service facilities including [a]Armed [f]Forces post offices, wherever located.

4050 APO/FPO Mail

4051 General. Except as provided in section 4052, the rates of postage for zone-rated mail transported between the United States, or the possessions or territories of the United States, on the one hand, and Army, Air Force and Fleet Post Offices on the other, or among the latter, shall be the applicable zone rates for mail between the place of mailing or delivery and the city of the postmaster serving the Army, Air Force or Fleet Post Office concerned.

4052 Transit Mail. The rates of postage for zone-rated mail [which] *that* is mailed at or addressed to an *Armed Forces* [armed forces] post office and [which] is transported directly to or from *Armed Forces* [armed forces] post offices at the expense of the Department of Defense, without transiting any of the 48 contiguous states (including the District of Columbia), shall be the applicable local zone rate; provided, however, that if the distance from the place of mailing to the embarkation point or the distance from the point of debarkation to the place of delivery is greater than the local zone for such mail, postage shall be assessed on the basis of the distance from the place of mailing to the embarkation point or the distance from the point of debarkation to the place of delivery of such mail, as the case may be. The word "transiting" does not include enroute transfers at coastal gateway cities which are necessary to transport military mail directly between military post offices.

5000 PRIVACY OF MAIL

5010 First-Class and Express Mail

Matter mailed as First-Class Mail or Express Mail shall be treated as mail which is sealed against postal inspection and shall not be opened except as authorized by law.

5020 All Other Mail

Matter not paid at First-Class Mail or Express Mail rates must be wrapped or secured in the manner [prescribed] *specified* by the Postal Service so that the contents may be examined. Mailing of sealed items as other than First-Class Mail or Express Mail is considered consent by the sender to the postal inspection of the contents.

Additional limitations may be applicable to specific subclasses, and rate and discount categories as provided in the eligibility provisions for each subclass or category.

Attached B—Requested Changes in Rates and Fees and Phasing Schedules

In conjunction with the requested changes in the Domestic Mail Classification Schedule (DMCS) set forth in Attachment A, the Postal Service also is requesting that the Commission recommend corresponding changes to the attendant rate and fee schedules.

Rate and fee schedules were last amended in part by the Decision of the Governors on the Further Recommended Decision of the Postal Rate Commission on Classroom Mail, Docket No. MC96-2 (Classroom Decision), as implemented by Resolution 97-9 of the Board of Governors; the Decision of the Governors on the Recommended Decision of the Postal Rate Commission on Special Services Fees and Classifications, Docket No. MC96-3 (Special Services Decision), as implemented by Resolution 97-7 of the Board of Governors; and the Decision of the Governors on the Recommended Decision of the Postal Rate Commission on the Experimental Nonletter-Size Business Reply Mail Categories and Fees, Docket No. MC97-1 (BRM Decision), as implemented by resolution 97-8 of the Board of Governors. The

current rate and fee schedules (which are published in part at 39 CFR Part 3001, subpart C, appendix A, and in part as the Attachment to the Classroom Decision 62 (Fed. Reg. 33,142), in part as Attachment B to the Special Services Decision (62 Fed. Reg. 26,099), in part as Attachment B to the BRM Decision (26 Fed. Reg. 25,756), and in part as Attachment B to the Decision of the Governors of the United States Postal Service on the Recommended Decision of the Postal Rate Commission on Nonprofit Standard Mail, Nonprofit Enhanced Carrier Route Standard Mail, Nonprofit Periodicals, and Within County Periodicals, Docket No. MC96-2 (61 Fed. Reg. 42,464)), are incorporated by reference in this Request.

The schedules in this attachment present both proposed and current rates and fees. In general, for existing schedules, proposed additions to text in the schedules or notes are underlined; proposed deletions are in brackets. New or renamed categories within existing schedules are underlined. Rate or fee categories that are either renamed or proposed for elimination are either in brackets or are assigned the acronym "NA" in the proposed rate or fee column. Special service schedules are renumbered according to the numbering system presented in Attachment A.

The proposed rate and fee schedules in this attachment contain both the proposed and the current rate levels for the preferred rate categories. The current levels are those approved by the Governors in Docket No. R94-1 for Library Rate, and in Docket No. MC96-2 for all other preferred subclasses. The proposed rates in this attachment are the "full" Step 6 rates pursuant 39 U.S.C. § 3626. Section 3626 establishes a six-year phasing period, at the end of which the markups for preferred subclasses will be set at one-half the markups for the corresponding commercial subclasses. The test year in this proceeding is FY 98, during which the markups for preferred subclasses are to be set at 5/12ths the markups for the corresponding commercial subclasses. The phasing schedules provided on pages 67-74 of this attachment show the proposed rates at levels 5 and 6 and are provided for informational purposes only.

The requested changes in the rate and fee schedules are as follows:

Attachment D—Special Rules of Practice

1. Evidence

A. Case-in-chief. A participant's case-in-chief shall be in writing and shall include the participant's direct case and rebuttal, if any, to the United States Postal Service's case-in-chief. It may be accompanied by a trial brief or legal memoranda. There will be a stage providing an opportunity to rebut presentations of other participants and

for the Postal Service to present surrebuttal evidence.

B. Exhibits. Exhibits should be self-explanatory. They should contain appropriate footnotes or narrative explaining the source of each item of information used and the methods employed in statistical compilations. The principal title of each exhibit should state what it contains or represents. The title may also contain a statement of the purpose for which the exhibit is offered; however, this statement will not be considered part of the evidentiary record. Where one part of a multi-part exhibit is based on another part or on another exhibit, appropriate cross-references should be made. Relevant exposition should be included in the exhibits or provided in accompanying testimony.

C. Motions to strike. Motions to strike are requests for extraordinary relief and are not substitutes for briefs or rebuttal evidence. All motions to strike testimony or exhibit materials are to be submitted in writing at least 14 days before the scheduled appearance of the witness, unless good cause is shown. Responses to motions to strike are due within seven days.

D. Designation of evidence from other Commission dockets. Participants may request that evidence received in other Commission proceedings be entered into the record of this proceeding. These requests should be made by motion, should explain the purpose of the designation, and should identify material by page and line or paragraph number. Absent extraordinary justification, these requests must be made at least 28 days before the date for filing the participant's direct case. Oppositions to motions for designation and/or requests for counter-designations shall be filed within 14 days.

Oppositions to requests for counter-designations are due within 7 days. At the time requests for designations and counter-designations are made, the moving participant must submit two copies of the identified material to the Secretary of the Commission.

2. Discovery

A. General. Sections 25, 26 and 27 of the rules of practice apply during the

discovery stage of this proceeding except when specifically overtaken by these special rules. Questions from each participant should be numbered sequentially, by witness.

The discovery procedures set forth in the rules are not exclusive. Parties are encouraged to engage in informal discovery whenever possible to clarify exhibits and testimony. The results of these efforts may be introduced into the record by stipulation, by supplementary testimony or exhibit, by presenting selected written interrogatories and answers for adoption by a witness at the hearing, or by other appropriate means.

In the interest of reducing motion practice, parties also are encouraged to use informal means to clarify questions and to identify portions of discovery requests considered overbroad or burdensome.

B. Objections and motions to compel responses to discovery. Upon motion of any participant in the proceeding, the Commission or the presiding officer may compel a more responsive answer, or an answer to an interrogatory or request for admission to which an objection was interposed, if the objection is overruled. Motions to compel should be filed within 14 days of the answer or objection to the discovery request. The text of the discovery request, and any answer provided, should be provided in the text or as an attachment to the motion to compel.

Parties who have objected to interrogatories or requests for production of documents or items which are the subject of a motion to compel shall have seven days to answer. Answers will be considered supplements to the arguments presented in the initial objection.

C. Answers to interrogatories. Answers to discovery are to be filed within 14 days of the service of the discovery request. Answers to discovery requests shall be prepared so that they can be incorporated as written cross-examination. Each answer shall begin on a separate page, identify the individual responding, the participant who asked the question, and the number and text of the question.

Participants are expected to serve supplemental answers to update or to correct responses whenever necessary, up until the date that answers are accepted into evidence as written cross-examination. Participants filing supplemental answers shall indicate whether the answer merely supplements the previous answer to make it current or whether it is a complete replacement for the previous answer.

Participants may submit responses with a declaration of accuracy from the respondent in lieu of a sworn affidavit.

D. Follow-up interrogatories. Follow-up interrogatories to clarify or elaborate on the answer to an earlier discovery request may be filed after the initial discovery period ends. They must be served within seven days of receipt of the answer to the previous interrogatory unless extraordinary circumstances are shown.

E. Discovery to obtain information available only from the Postal Service. Sections 25 through 27 of the rules of practice allow discovery reasonably calculated to lead to admissible evidence during a noticed proceeding with no time limitations. Generally, discovery against a participant is scheduled to end prior to the receipt into evidence of that participant's direct case. An exception to this procedure shall operate when a participant needs to obtain information (such as operating procedures or data) available only from the Postal Service. Discovery requests of this nature are permissible up to 20 days prior to the filing date for final rebuttal testimony.

3. Service

A. Receipt of documents. The Service List shall contain the name and address of up to two individuals entitled to receive copies of documents for each participant. If possible that entry will also include a telephone number and facsimile number.

B. Service of documents. Documents shall be filed with the Commission and served upon parties in accordance with sections 9 through 12 of the Commission's rules of practice. Participants capable of submitting documents stored on computer diskettes may use an alternative procedure for filing documents with the Commission. Provided that the stored document is a file generated in either Word Perfect 5.1 or any version of Microsoft Word, and is formatted in Arial 12 font, in lieu of the requirements of section 10 of the rules, a participant may submit a diskette containing the text of each

filing simultaneously with the filing of 1 (one) printed original and 3 (three) hard copies.

C. Exceptions to general service requirements for certain documents. Designations of written cross-examination, notices of intent to conduct oral cross-examination, and notices of intent to participate in oral argument need to be served only on the Commission, the OCA, the Postal Service, and the complementary party (as applicable), as well as on participants filing a special request for service.

Discovery requests, objections and answers thereto need to be served on the Commission, the OCA, the Postal Service, and the complementary party, and on any other participant so requesting, as provided in sections 25–27 of the rules of practice. Special requests relating to discovery must be served individually upon the party conducting discovery and state the witness who is the subject of the special request.

D. Document titles. Parties should include titles that effectively describe the basic content of any filed documents. Where applicable, titles should identify the issue addressed and the relief requested. Transmittal documents should identify the answers or other materials being provided.

4. Cross-Examination

A. Written cross-examination. Written cross-examination will be utilized as a substitute for oral cross-examination whenever possible, particularly to introduce factual or statistical evidence.

Designations of written cross-examination should be served no later than three working days before the scheduled appearance of a witness. Designations shall identify every item to be offered as evidence, listing the participant who initially posed the discovery request, the witness and/or party to whom the question was addressed (if different from the witness answering), the number of the request and, if more than one answer is provided, the dates of all answers to be included in the record. (For example, "OCA-T1-17 to USPS witness Jones, answered by USPS witness Smith (March 1, 1997) as updated (March 21, 1997).") When a participant designates written cross-examination, two copies of the documents to be included shall simultaneously be submitted to the Secretary of the Commission.

The Secretary of the Commission shall prepare for the record a packet

containing all materials designated for written cross-examination in a format that facilitates review by the witness and counsel. The witness will verify the answers and materials in the packet, and they will be entered into the transcript by the presiding officer. Counsel for a witness may object to written cross-examination at that time, and any designated answers or materials ruled objectionable will be stricken from the record.

B. Oral cross-examination. Oral cross-examination will be permitted for clarifying written cross-examination and for testing assumptions, conclusions or other opinion evidence. Requests for permission to conduct oral cross-examination should be served three or more working days before the announced appearance of a witness and should include (1) specific references to the subject matter to be examined and (2) page references to the relevant direct testimony and exhibits.

Participants intending to use complex numerical hypotheticals or to question using intricate or extensive cross-references, shall provide adequately documented cross-examination exhibits for the record. Copies of these exhibits should be provided to counsel for the witness at least two calendar days (including one working day) before the witness's scheduled appearance.

5. General

Argument will not be received in evidence. It is the province of the lawyer, not the witness. It should be presented in brief or memoranda. Legal memoranda on matters at issue will be welcome at any stage of the proceeding.

New affirmative matter (not in reply to another party's direct case) should not be included in rebuttal testimony or exhibits.

Cross-examination will be limited to testimony adverse to the participant conducting the cross-examination.

Library references may be submitted when documentation or materials are too voluminous reasonably to be distributed. Each party should sequentially number items submitted as library references and provide each item with an informative title. Parties are to file and serve a separate Notice of Filing of Library Reference(s). Library material is not evidence unless and until it is designated and sponsored by a witness.
