

the use of those lands as described in the respective plan.

*OHV Use:* The parcel would be limited to OHV use on designated roads and trails year round.

### Central Pacific Railroad Grade ACEC Prescriptions

The expansion of the ACEC would be managed according to the goals and objectives of the existing management plan, and have the same restrictions or limitations to the use of those lands as described in the respective plan.

*Livestock:* Livestock grazing would continue at current levels, class of livestock and season of use as that described in the Box Elder RMP for those lands located within the wetlands portions of the eastern CPR grade.

If spring grazing continues, the area should be fenced to create pastures for the Golden Spike Allotment. If grazing permits are relinquished within the wetland areas of the lands associated with the eastern and western portions of the CPRR/UPR grades, then these areas would be closed to grazing to protect the wetland values. Grazing would only then be authorized if the grazing could be used to achieve management objectives.

*Mineral Development:* Oil & gas leasing would be subject to Category 3 (No Surface Occupancy) stipulation. A land withdrawal from the operation of the public land laws and location and entry under the United States Mining laws is proposed.

*Off Highway Vehicle (OHV):* OHV use would be limited to existing roads and trails throughout the year on the east and west portions of the CPRRG which do not involve wetlands, while the wetland portions of the CPRRG would be "closed" to OHV use.
