California Department of Water Resources; Notice of Availability of Draft Environmental Assessment

July 21, 1997.

A draft environmental assessment (DEA) is available for public review. The DEA was prepared for California Department of Water Resources' (licensee) application to expand the Feather River Fish Hatchery.

In summary, the DEA examines the environmental impacts of three alternatives for expanding the hatchery: (1) Licensee's proposed action: 600 feet of new raceways with hatching and incubation facilities; (2) proposed alternative: 1,600 feet of raceways; and (3) no-action. These alternatives are described in detail on pages two and three of the DEA.

The DEA recommends the licensee construct 600 feet of new raceways at the Feather River Fish Hatchery in accordance with the licensee's proposed action alternative. The DEA concludes that implementation of this alternative would not constitute a major federal action significantly affecting the quality of the human environment.

This DEA was written by staff in the Office of Hydropower Licensing (OHL). As such, the DEA is OHL staff's preliminary analysis of the licensee's recommendation for expansion of the Feather River Fish Hatchery. No final conclusions have been made by the Commission regarding this matter.

Should you wish to provide comments on the DEA, they should be filed within 30 days from the date of this letter. Comments should be addressed to: Ms. Lois D. Cashell, Secretary, Federal Energy Regulatory Commission, 888 First Street, N.E., Washington, D.C. 20426. Please include the project number (2100-067) on any comments filed.

Lois D. Cashell,

Secretary.
