

SUPPLEMENTARY INFORMATION:**Proposed Action**

The proposal is to harvest and manage approximately 880 acres of mature sawtimber stands within the analysis area. The proposal includes the following activities:

- Treatment by harvesting approximately 8.0 MMBF of commercial timber using both even and uneven-aged silvicultural systems. Approximate acres to be treated:

- 380 acres—shelterwood & group selections

- 470 acres—clearcut

- 25 acres—commercial thin

- Construction of approximately 18 miles of specified road and 2 1/2 miles of road reconstruction.

- Post sale work could include, but is not limited to; regeneration and stocking surveys to assure proper reforestation of harvested stands; noxious weed spraying; and thinning of past harvest areas.

Other Opportunities

- Remedy road maintenance and erosion problems on road 500.1D by relocating. Obliteration of existing road to eliminate trespass concerns and maintenance problems.

- Reduce sediment production from the Hare Trail (FDT 1199) by relocating or eliminating trail.

- Reduce fuel loading in the head of the Middle Fork Little Snake River.

All proposed activities would take place within the East Big Red analysis area, and are planned for implementation starting in 1999.

Decision to Be Made

The Medicine Bow-Routt Forest Supervisor will need to make an informed decision about the selection of one alternative among several. The issues and alternatives developed by the IDT members and public commenters must be analyzed and displayed clearly. From the project record alone, the Forest Supervisor and others who may review the decision, must be able to fully understand the consequences of implementing the selected alternative.

Preliminary Issues

- Effects of timber harvest and road construction on watershed condition and thus water quality.

- Effects of timber harvest on wildlife habitat with potential reduction of big game hiding cover along open roads and around meadows from timber harvest, and also the loss of old growth and goshawk habitat.

- Effects on range management.

- Impacts on recreation facilities such as trails and dispersed camp sites.

- Effects on visual quality primarily from forest roads 550 and 505, and those roads and units which are adjacent to trails 1199, 1203, and 1204.

- Effects on roadless character.

Several units and roads are proposed within the Dome Peak Roadless Area.

Scope of the Analysis

This environmental analysis shall consider the environmental consequences of the proposed action, as well as alternatives reasonably implemented, while meeting the purpose and need of the action.

Dated: July 11, 1997.

Jerry E. Schmidt,

Forest Supervisor.

COMMITTEE FOR PURCHASE FROM PEOPLE WHO ARE BLIND OR SEVERELY DISABLED**Procurement List Additions**

AGENCY: Committee for Purchase From People Who Are Blind or Severely Disabled.

ACTION: Additions to the Procurement List.

SUMMARY: This action adds to the Procurement List a commodity and services to be furnished by nonprofit agencies employing persons who are blind or have other severe disabilities.

EFFECTIVE DATE: August 25, 1997.

ADDRESSES: Committee for Purchase From People Who Are Blind or Severely

Disabled, Crystal Square 3, Suite 403, 1735 Jefferson Davis Highway, Arlington, Virginia 22202-3461.

FOR FURTHER INFORMATION CONTACT:

Beverly Milkman, (703) 603-7740.

SUPPLEMENTARY INFORMATION: On May 2, 23, 30 and June 6, 1997, the Committee for Purchase From People Who Are Blind or Severely Disabled published notices (62 FR 24077, 28443, 29327 and 31065) of proposed additions to the Procurement List.

After consideration of the material presented to it concerning capability of qualified nonprofit agencies to provide the commodity and services and impact of the additions on the current or most recent contractors, the Committee has determined that the commodity and services listed below are suitable for procurement by the Federal Government under 41 U.S.C. 46-48c and 41 CFR 51-2.4.

I certify that the following action will not have a significant impact on a substantial number of small entities. The major factors considered for this certification were:

1. The action will not result in any additional reporting, recordkeeping or other compliance requirements for small entities other than the small organizations that will furnish the commodity and services to the Government.

2. The action will not have a severe economic impact on current contractors for the commodity and services.

3. The action will result in authorizing small entities to furnish the commodity and services to the Government.

4. There are no known regulatory alternatives which would accomplish the objectives of the Javits-Wagner-O'Day Act (41 U.S.C. 46-48c) in connection with the commodity and services proposed for addition to the Procurement List.

Accordingly, the following commodity and services are hereby added to the Procurement List:

Commodity
