[Docket No. CP97-675-000]

U.S. General Services Administration; Notice of Application for Presidential Permit and Section 3 Authorization

August 1, 1997.

Take notice that on July 30, 1997, U.S. General Services Administration (GSA), Northwest Arctic Region, 400 15th Street SW, Auburn, Washington 98001-6599, filed in Docket No. CP97-675-000, an application for a Presidential Permit for the importation of natural gas and authority under Section 3 to construct, operate, maintain, and connect a natural gas pipeline extending from the Port of Entry facility at Point Roberts, Washington to a Canadian pipeline facility at the International border, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

GSA states that the Point Roberts pipeline system will consist of a 40 mm (two-inch) inside diameter pipe extending approximately 144 m (472 feet) from the gas meter set by BC Gas, Inc. on the Canadian side of the United States/Canada border. The Point Roberts pipeline system will transport gas only to the Port of Entry facility, no service will be provided or offered to the public. The Point Roberts Port of Entry facility is used by the U.S. Customs Service and the Immigration and Naturalization Service. GSA states that it will finance the construction and operation of the pipeline system. GSA further states that it will contract with IGC Resources, Inc., who has blanket authority from the U.S. Department of Energy to import natural gas from Canada, to provide the natural gas service to the Port of Entry facility. GSA also states that BC Gas, Inc. will construct and operate pipe and meter facilities in Canada, and that GSA will construct and operate the pipeline system from the meter to the facility in the United States.

Any person desiring to be heard or to make any protest with reference to said application should on or before August 22, 1997, file with the Federal Energy Regulatory Commission, 888 First

Street, N.E., Washington, D.C. 20426, a motion to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.214 or 18 CFR 385.211) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a motion to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Energy Regulatory Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission or its designee on this application if no motion to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a motion for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for GSA to appear or be represented at the hearing.
