

hear the Calico Scallop Committee report before taking action on which measures to include in the Calico Scallop FMP. From 2:30 p.m. to 5:00 p.m., the Council will hear the Habitat Committee report, and the Bluefish Committee report before approving Council bluefish amendment recommendations to the MAFMC and the ASMFC. At 3:00 p.m., the Council will hear the Executive and Finance Committee report and approve the proposed changes to 1997 activities and budget, and approve the proposed 1998 activities schedule and budget, hear a report on the Atlantic Coastal Cooperative Statistics Program, agency and liaison reports, and discuss other business.

Special Accommodations

These meetings are physically accessible to people with disabilities. Requests for sign language interpretation or other auxiliary aids should be directed to the Council office (see ADDRESSES) by August 11, 1997.

Dated: July 31, 1997.

Bruce C. Morehead,

Acting Director, Office of Sustainable Fisheries, National Marine Fisheries Service.

BILLING CODE 3510-22-F

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

[I.D. 073097A]

Endangered Species; Permits

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Issuance of Scientific Research Permit 1053, Issuance of Modification 4 to Scientific Research Permit 962, and Notice of Receipt of Application for a Scientific Research Permit (P648).

SUMMARY: Notice is hereby given that on July 14, 1997, NMFS issued scientific research permit 1053 to Molly Lutcavage, of the New England Aquarium (P645), to take listed leatherback turtles, and on July 23, 1997, NMFS issued modification 4 to scientific research permit 962 issued to Carlos Diez and Robert van Dam, Puerto Rico Department of Natural and Environmental Resources (P509B), to take listed hawksbill and green turtles for the purpose of scientific research subject to certain conditions set forth therein. Notice is also given that Samuel S. Sadove of Coastal Research &

Education Society of Long Island, Inc. (P648) has applied in due form for a scientific research permit to take listed sea turtles.

ADDRESSES: The application, permit, and related documents are available for review by appointment in the following offices:

Office of Protected Resources, F/PR3, NMFS, 1315 East-West Hwy., Room 13307, Silver Spring, MD 20910-3226 (301-713-1401); and

Director, Northeast Region, NMFS, NOAA, One Blackburn Drive, Gloucester, MA 01930-2298 (508-281-9250).

or

Director, Southeast Region, NMFS, NOAA, 9721 Executive Center Drive, St. Petersburg, FL 33702-2432 (813-893-3141).

SUPPLEMENTARY INFORMATION: Notice was published on May 8, 1997 (62 FR 25174) that an application had been filed by Dr. Molly Lutcavage, New England Aquarium (P645), to take listed leatherback turtles as authorized by the Endangered Species Act of 1973 (ESA) (16 U.S.C. 1531-1543) and NMFS regulations governing listed fish and wildlife permits (50 CFR parts 217-222).

Dr. Lutcavage requested a one year permit to satellite tag eight (8) listed leatherback (*Dermochelys coriacea*) turtles to determine vulnerability of leatherbacks to incidental capture by pelagic longline fisheries; to relate specific travel routes of leatherback turtles equipped with satellite transmitters to fishing activities and oceanographic features; to assist pelagic fishermen in the development of fishing techniques that reduce interactions with leatherback turtles; and to develop safe handling procedures and satellite attachment techniques. On July 14, 1997, NMFS issued Permit 1053 authorizing the above activities.

Notice was published on June 17, 1997 (62 FR 32768) that a request had been filed by Carlos Diez (P509B), to modify permit 962, to take listed sea turtles as authorized by the Endangered Species Act of 1973 (ESA) (16 U.S.C. 1531-1543) and NMFS regulations governing listed fish and wildlife permits (50 CFR parts 217-222).

Carlos Diez and Robert van Dam are authorized under permit 962 to examine, photograph, measure, and tag 200 listed hawksbill (*Eretmochelys imbricata*) and 20 listed green (*Chelonia mydas*) sea turtles annually, in the waters surrounding Mona and Monito Islands, Puerto Rico. Additionally, some of the turtles may be lavaged, have blood or scute samples taken, or have time-depth recorders or crittercams

attached. Modification 4, issued by NMFS on July 23, 1997, authorizes the following modifications to permit 962: 1) an increase in the level of take of hawksbill turtles to a total of 300 annually; 2) an increase in the level of take of green turtles to a total of 100 annually; 3) authorization to net capture green turtles; 4) authorization to include the Puerto Rican Islands of Culebra, Vieques, Desecheo, and Caja de Muertos in the study area; 5) authorization to collect up to 10 cc's of blood from all turtles taken under the authority of this permit for genetic analysis and sex determination; and 6) authorization to include Teresa Tellevast, U.S. Fish and Wildlife Service, as an agent under this permit.

Samuel S. Sadove, Coastal Research & Education Society of Long Island, Inc. (P648), requests a Scientific Research Permit under the authority of the Endangered Species Act of 1973 (ESA) (16 U.S.C. 1531-1543) and NMFS regulations governing listed fish and wildlife permits (50 CFR parts 217-227).

The applicant is requesting a three year permit to take listed Kemp's ridley (*Lepidochelys kempii*), loggerhead (*Caretta caretta*), green (*Chelonia mydas*), and leatherback (*Dermochelys coriacea*) sea turtles to determine the distribution, habitat use, survivorship, and recruitment of turtles in New York State waters. The turtles would be weighed, measured, photographed, blood sampled, fecal sampled, and tagged. The proposed study would continue ten years of research initiated by the applicant while acting as an agent for the New York State Department of Environmental Conservation, pursuant to the State of New York ESA Section 6 cooperative agreement.

Issuance of these permits/modifications, as required by the ESA, was based on a finding that such permits/modifications: (1) were applied for in good faith, (2) will not operate to the disadvantage of the listed species that is/are the subject of the permits/modifications, and (3) are consistent with the purposes and policies set forth in section 2 of the ESA.

Dated: July 31, 1997.

Nancy Chu,

Chief, Endangered Species Division, Office of Protected Resources, National Marine Fisheries Service.
