*Form No.:* N/A.

*Type of Review:* New collection.

*Respondents:* Individuals or households; business or other for-profit entities; state, local or tribal government.

*Number of Respondents:* 60.

*Estimated Hour Per Response:* 125 hours per response (average).

*Estimated Total Annual Burden:* 7,500 hours.

*Needs and Uses:* Section 253 of the Communications Act of 1934, as amended, added by the Telecommunications Act of 1996, requires the Commission, with certain important exceptions, to preempt the enforcement of any State or local statute or regulation, or other State or local legal requirement (to the extent necessary) that prohibits or has the effect of prohibiting the ability of any entity to provide any interstate or intrastate telecommunications service. The Commission's consideration of preemption begins with the filing of a petition by an aggrieved party. The petition is placed on public notice and commented on by others. The Commission's decision is based on the public record, generally composed of the petition and comments. The Public Notice the Commission proposed to release establishes guidelines relating to its consideration of preemption petitions. Consideration of a petition requesting Commission action pursuant to Section 253 necessarily will involve state or local statutes, regulations, ordinances, or other legal requirements

that will likely be initially unfamiliar to the Commission. In order to render a timely and informed decision, the Commission expects petitioners and commenters to provide it with relevant information sufficient to describe the legal regime involved in the controversy and to establish the factual basis necessary for decision. The Commission will use the information to discharge its statutory mandate relating to the preemption of State or local statutes or regulations, or other State or local legal requirements.
