

deemed to have made a *prima facie* case supporting grant of the proposed change in association if the petition: (1) States that the association change is necessary because of planned upgrades to the ITC's network or service that will require routing traffic through a different BOC LATA; (2) involves a limited number of access lines; and (3) includes a statement from the affected BOC(s) requesting a LATA modification. The guidelines will assist the ITCs in filing LATA association petitions and the Commission in determining whether a change in LATA association should be granted. The requested information will be used by the Commission to determine whether the need for the proposed changes in LATA association outweighs the risk of potential anticompetitive effects, and thus whether requests for changes in LATA association and connected modifications of LATA boundaries should be granted.
