

The proposed FY 1998 disposal quantity for each listed material is the maximum amount of material that may be sold in a particular fiscal year. Please note that these quantities are not sales targets. The quantity of each material that will actually be offered for sale will depend on the market for the material at the time of the offering. It will also depend on the maximum quantity of each material approved for disposal by the Congress.

The Committee requests that interested parties provide written comments, supporting data and documentation, and any other relevant information on the potential market impact of the sale of any commodity in the above lists. Although comments in response to this Notice must be received by September 26, 1997 to ensure full consideration by the Committee, interested parties are encouraged to submit additional comments and supporting information at any time thereafter to keep the Committee informed as to the market impact of the sale of the commodities. Public comment is an important element of the Committee's market impact review process.

Public comments received will be made available at the Department of Commerce for public inspection and copying. Material that is national security classified or business confidential will be exempted from public disclosure. Anyone submitting business confidential information should clearly identify the business confidential portion of the submission and also provide a non-confidential submission that can be placed in the public file. Communications from agencies of the United States Government will not be made available for public inspection.

The public record concerning this notice will be maintained in the Bureau of Export Administration's Records Inspection Facility, Room 4525, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW, Washington, DC 20230, telephone (202) 482-5653. The records in this facility may be inspected and copied in accordance with the regulations published in Part 4 of Title 15 of the Code of Federal Regulations (15 CFR 4.1 *et seq.*).

Information about the inspection and copying of records at the facility may be obtained from Ms. Margaret Cornejo, the Bureau of Export Administration's Freedom of Information Officer, at the above address and telephone number.

Dated: August 21, 1997.

Karen A. Swasey,

Director, Economic Analysis Division.

Foreign-Trade Zones Board

[Order No. 916]

Grant of Authority for Subzone Status; Minnesota Mining & Manufacturing Company; (Pharmaceutical Products) Los Angeles, California

Pursuant to its authority under the Foreign-Trade Zones Act of June 18, 1934, as amended (19 U.S.C. 81a-81u), the Foreign-Trade Zones Board (the Board) adopts the following Order:

Whereas, by an Act of Congress approved June 18, 1934, an Act "To provide for the establishment * * * of foreign-trade zones in ports of entry of the United States, to expedite and encourage foreign commerce, and for other purposes," as amended (19 U.S.C. 81a-81u) (the Act), the Foreign-Trade Zones Board (the Board) is authorized to grant to qualified corporations the privilege of establishing foreign-trade zones in or adjacent to U.S. Customs ports of entry;

Whereas, the Board's regulations (15 CFR part 400) provide for the establishment of special-purpose subzones when existing zone facilities cannot serve the specific use involved;

Whereas, an application from the Board of Harbor Commissioners of the City of Los Angeles, California, grantee of Foreign-Trade Zone 202, for authority to establish special-purpose subzone status at the pharmaceutical manufacturing plant of the Minnesota Mining & Manufacturing Company, in Los Angeles, California, was filed by the Board on May 15, 1996, and notice inviting public comment was given in the **Federal Register** (FTZ Docket 41-96, 61 FR 26157, 5-24-96); and,

Whereas, the Board adopts the findings and recommendations of the examiner's report, and finds that the requirements of the FTZ Act and Board's regulations are satisfied, and that approval of the application is in the public interest;

Now, Therefore, the Board hereby grants authority for subzone status at the pharmaceutical manufacturing plant of the Minnesota Mining & Manufacturing Company, located in Los Angeles, California (Subzone 202A), at the location described in the application, and subject to the FTZ Act and the Board's regulations, including § 400.28.

Signed at Washington, DC, this 20th day of August 1997.

Robert S. LaRussa,

Assistant Secretary of Commerce for Import Administration, Alternate Chairman, Foreign-Trade Zones Board.

Foreign-Trade Zones Board

[Docket A(32b1)-3-97]

Foreign-Trade Zone No. 143—Sacramento, CA Area, Request for Manufacturing Authority (Computers and Related Electronic Products), Lincoln, California

An application has been submitted to the Foreign-Trade Zones Board (the Board) by Zytec Services and Logistics (ZSL), an operator of FTZ 143, pursuant to § 400.32(b)(1) of the Board's regulations (15 CFR part 400), requesting authority on behalf of ZSL to manufacture and assemble computers and related electronic products and subassemblies within FTZ 143. It was formally filed on August 19, 1997.

ZSL operates a facility (800 employees) within FTZ 143 (Site 2 (6 acres, 2 bldgs.) at the Lincoln Airport Business Park) for the manufacture, assembly, distribution, repair and final systems integration of computers and related electronic products and components. Most of ZSL's manufacturing and assembly activity at this site involves contract work for computer and electronic product manufacturers, and includes contract service and repair activity. The manufacturing activity that ZSL proposes to conduct under FTZ procedures at the outset would primarily involve the manufacture/assembly of personal computers, monitors, printers and peripherals such as optical scanners and digital imaging cameras.

A number of components are purchased from abroad (an estimated 70% of total material value), including: Printed circuit boards, silicon wafers, rectifiers, integrated circuits, memory modules, CD-ROM drives, disk drives, scanners, hard drives, keyboards, monitors/displays (CRT and LCD type), LEDs, speakers, microphones, belts, valves, bearings, plastic materials, industrial chemicals, sensors, filters, resistors, transducers, fuses, plugs, relays, ink cartridges, toner cartridges, switches, fasteners, cards, transformers, DC/electric motors, magnets, modems, batteries, cabinets, power supplies,
