

for the royalty oil. Form MMS-4070, Application for the Purchase of Royalty Oil, is submitted by refiners interested in purchasing royalty oil in accordance with instructions in the Notice, and with instructions issued by MMS for completion of the form. The information collected is used by MMS to determine if the applicant meets eligibility requirements to contract to purchase royalty oil. Information collected also provides a basis for the allocation of available royalty oil among qualified refiners. Applicants are required to submit a letter of intent from a qualified financial institution stating that the applicant will be granted surety coverage for the royalty oil. The letter of intent must accompany Form MMS-4070.

The Government's administration of the royalty oil program is aided significantly by the collection of information requested on Form MMS-4070. Form MMS-4070 is used to determine the eligibility of refiners wishing to enter into contracts to purchase royalty oil. The form requires:

- (1) The name and address of the applicant;
- (2) Number of persons employed by applicant's firm (offshore sale only);
- (3) A disclosure of any affiliation with other companies;
- (4) Capacity and location of the applicant's refineries;
- (5) Identification of contract numbers (if any) under which the applicant currently receives royalty oil;
- (6) Preference eligibility request;
- (7) Locations where the applicant proposes to purchase royalty oil, and the volume of oil requested;
- (8) Authorized signature attesting to the accuracy of information supplied; and
- (9) Name of the preparer.

Activity in the RIK program depends on the number of refiners expressing a need for supplies of oil and the Secretary authorizing a sale of royalty oil. We estimate that the annual burden to the industry is 25 hours, assuming that an RIK sale will occur, that 20 applicants will submit Form MMS-4070, and that each application requires approximately 1 hour to prepare and 1/4 hour for associated recordkeeping (20 applicants  $\times$  1 1/4 hours=25 burden hours).

Dated: August 25, 1997.
