

predation on plants and loss of pollinators; and natural events such as landslides, erosion, rockslides, and flash floods.

The objective of this plan is to provide a framework for the recovery of these three taxa so that protection by the Act is no longer necessary. Recovery efforts will focus on increasing monitoring, establishing *ex situ* collections of seeds and plants in botanical gardens, conducting applied research, controlling threats, increasing numbers on Nihoa, and exploring the feasibility and desirability of establishing the taxa on other Hawaiian islands.

Public Comments Solicited

The Service solicits written comments on the recovery plan described. All comments received by the date specified above will be considered prior to approval of this plan.

National Park Service

Keweenaw National Historical Park, Draft Environmental Impact Statement/General Management Plan

AGENCY: National Park Service, Interior.

ACTION: Notice of availability of draft environmental impact statement and General Management Plan for the Keweenaw National Historical Park, located in Houghton County, Michigan.

SUMMARY: Pursuant to section 102(2)(c) of the National Environmental Policy Act of 1969, the National Park Service (NPS) announces the availability of the Draft Environmental Impact Statement (DEIS) and General Management Plan (GMP) for the Keweenaw National Historical Park. The DEIS responds to Public Law 102-543, establishing Keweenaw National Historical Park. This notice also announces public meetings for the purpose of receiving public comments on the DEIS.

This DEIS for the GMP presents a proposal and three alternative strategies for guiding future management of the national historical park and balancing

resource protection and public use. The major subject areas are, cultural resources, visitor experience, park management and operations, and the establishment of a public partnership.

Alternative 1 presents a continuation of existing trends and management, and projects these conditions into the foreseeable future, providing a basis to evaluate the other alternatives.

Alternative 2, the "community assistance alternative," would place the community at the forefront of implementing preservation actions and interpretive programs at sites in the park. The NPS would play a major support role, providing a comprehensive program of technical and financial assistance to the community to help make their actions a success. Under alternative 3, the "traditional park in the core industrial areas" alternative, the NPS would establish a very visible and traditional presence in the core industrial areas in each unit. The NPS would lease or acquire one or more buildings in each unit for visitor use and administration services. Other significant properties within the core industrial areas of the Calumet and Quincy units could be leased or purchased and interpreted when funding and staffing levels were adequate. The proposed action (alternative 4) is a blend of the community assistance alternative, number 2, and a refinement of the more traditional national park alternative, number 3. Through selected acquisition and other preservation tools, the NPS would have a strong public presence in both park units. Through community assistance, the NPS would be a contributing member of a very organized and active partnership of local government and community groups. The DEIS evaluates the potential environmental impacts associated with the four alternatives.

DATES: Comments on the DEIS should be received no later than October 31, 1997. Public meetings regarding the DEIS will be held at 7:00 p.m. on September 22 and 23, 1997.

ADDRESSES: Comments on the DEIS shall be submitted to the Superintendent, Keweenaw National Historical Park, 100 Red Jacket Road, Second Floor, Calumet, Michigan, 49913.

Public meetings will be held at the following locations:

Calumet High School All Purpose Room, Calumet, Michigan 7:00 p.m., September 22, 1997.
Finnish-American Heritage Center, Suomi College campus, Hancock,
