[Project No. 2009-009]

Virginia Electric and Power Company; Notice of Availability of Final Environmental Assessment

August 27, 1997.

An environmental assessment (EA) is available for public review. The EA is for an application for non-project use of project lands and waters. The application is to permit the City of South Hill, Virginia, to construct, operate and maintain a water intake facility within the Gaston and Roanoke Rapids Project boundary in Lake Gaston for withdrawal of up to 7.0 million gallons per day of water for municipal purposes. The EA finds that approval of the application would not constitute a major federal action significantly affecting the quality of the human environment. The Project is located on the Roanoke River, Virginia and North Carolina.

The EA was written by staff in the Office of Hydropower Licensing, Federal Energy Regulatory Commission. Copies of the EA can be viewed in the Reference and Information Center, Room 2A, of the Commission's Offices at 888 First Street, N.E., Washington, D.C. 20426.

For further information, please contact the project manager, Mr. Robert Grieve at (202) 219-2655.
