relation to relevant statutory and regulatory requirements.

III. Administrative Requirements

A. Docket

Copies of Santa Barbara’s submittal and other information relied upon for the direct final actions are contained in docket number CA-001-PP OPS maintained at the EPA Regional Office. The docket is an organized and complete file of all the information submitted to, or otherwise considered by, EPA in the development of this direct final rulemaking. The docket is available for public inspection at the location listed under the ADDRESSES section of this document.

B. Regulatory Flexibility Act

The EPA’s actions under section 502 of the Act do not create any new requirements, but simply address revisions to Santa Barbara’s existing operating permits program that was submitted to satisfy the requirements of 40 CFR part 70. Because this action does not impose any new requirements, it does not have a significant impact on a substantial number of small entities.

C. Unfunded Mandates

Under Section 202 of the Unfunded Mandates Reform Act of 1995 (“Unfunded Mandates Act”), signed into law on March 22, 1995, EPA must prepare a budgetary impact statement to accompany any proposed or final rule that includes a federal mandate that may result in estimated costs to state, local, or tribal governments in the aggregate; or to the private sector, of $100 million or more. Under Section 205, EPA must select the most cost-effective and least burdensome alternative that achieves the objectives of the rule and is consistent with statutory requirements. Section 203 requires EPA to establish a plan for informing and advising any small governments that may be significantly or uniquely impacted by the rule.

EPA has determined that the approval action promulgated today does not include a federal mandate that may result in estimated costs of $100 million or more to either state, local, or tribal governments in the aggregate, or to the private sector. This federal action promotes pre-existing requirements under state or local law, and imposes no new federal requirements. Accordingly, no additional costs to state, local, or tribal governments, or to the private sector, result from this action.

D. Executive Order 12866

The Office of Management and Budget has exempted this action from review under Executive Order 12866.
