#### SUPPLEMENTARY INFORMATION:

**Title:** Ante-Mortem and Post-Mortem Inspection.

**OMB Number:** 0583-0090.

**Expiration Date of Approval:** November 30, 1997.

**Type of Request:** Extension and revision of a currently approved information collection.

**Abstract:** FSIS has been delegated the authority to exercise the functions of the Secretary as provided in the Federal Meat Inspection Act (FMIA) (21 U.S.C. 601 *et seq.*) and the Poultry Products Inspection Act (PPIA) (21 U.S.C. 451 *et seq.*). These statutes mandate that FSIS protect the public by ensuring that meat and poultry products are safe, wholesome, unadulterated, and properly labeled and packaged.

FSIS is requesting an extension and revision to the information collection package addressing meat and poultry paperwork and recordkeeping requirements regarding ante-mortem and post-mortem inspection. Such information collections are necessary to ensure that meat and poultry products are wholesome and unadulterated.

FSIS permits poultry establishments to operate under the Streamlined Inspection System (SIS), the New Line Speed (NELS) Inspection System, or the New Turkey Inspection (NTI) System.

These systems are post-mortem inspection systems that have enabled the poultry industry to increase their daily production. To operate under SIS for broilers and Cornish game hens, establishments must request and receive approval from the Agency.

Establishments operating under NELS and NTI must develop and maintain a partial quality control (PQC) programs. There are information collection requirements associated with the request, approval, and daily operations of these systems. FSIS program employees review the records relating to the systems operation at least three times a week to verify regulatory compliance.

Meat and poultry establishments wishing to slaughter animals treated with experimental biological products, drugs or chemicals must provide certain information and supporting data for review by the Agency before approval may be granted. Also, persons or entities wishing to obtain specimens of diseased, condemned or inedible material must submit information to FSIS.

Because of the continued need for these information collection activities, FSIS is requesting OMB extension for and revision of the Information Collection Request covering information collection activities related to these requirements.

**Estimate of Burden:** The public reporting burden for this collection of information is estimated to average .0216572 hours per response.

**Respondents:** Meat and poultry establishments.

**Estimated Number of Respondents:** 1,114.

**Estimated Number of Responses per Respondent:** 817.20466.

**Estimated Total Annual Burden on Respondents:** 19,716 hours.
