

permitting process with a resulting net ecosystem benefit. EPA is a party in this team permitting process. The permitting process is projected to be completed in the winter of 1998.

EPA has identified the need to prepare an environmental impact statement (EIS) for this grant award. The potential for impact and controversy were considered as part of this determination. The intent of the EPA is to assure the requirements of the National Environmental Policy Act are fully met. EPA intends to coordinate the preparation on the EIS with the Ecosystem Team Permitting process as much as possible. Available information and materials produced by the applicant and other materials generated by the team permitting process will be used for preparing the EIS.

#### Alternatives

The EIS will address alternatives for the project and their potential impacts. Potential impacts to water quality, public health and area water resources will be given special attention.

#### Role of the Public

Participation in the EIS process is invited from individuals, organizations, and all governmental agencies. EPA will hold a public scoping meeting in concert with an ecosystem permitting team public meeting on September 17, 1997 at 6:00 pm. The meeting will be held at the Tampa Convention Center, Room 18. Both oral and written comments will be accepted. Comments and questions are encouraged, and relevant issues identified in the scoping process will be addressed in the EIS. Following the scoping meeting, EPA, State of Florida and City of Tampa officials will be on hand to answer questions the public may have regarding this project, the NEPA process or the team permitting process.

Persons who do not attend the scoping meeting and wish to comment on the issues and scope of the project are invited to respond in writing to this Agency. Comments received will be addressed in the EIS. Comments provided through the ecosystem permitting process will also be considered for the EIS.
