BILLING CODE 6750-01-M

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Agency for Health Care Policy and Research

Agency Information Collection Activities: Proposed Collection; Comment Request

AGENCY: Agency for Health Care Policy and Research, HHS.

ACTION: Notice.

SUMMARY: This notice announces the Agency for Health Care Policy and Research's (AHCPR) intention to request the Office of Management and Budget (OMB) to allow a proposed information collection of the "Medical Expenditure Panel Survey Household Component (MEPS HC)—Panels 3 and 4." In accordance with the Paperwork Reduction Act of 1995, Pub. L. 104-13 (44 U.S.C. 3506(c)(2)(A)), AHCPR invites the public to comment on this proposed information collection.

DATES: Comments on this notice must be received by November 7, 1997.

ADDRESSES: Written comments should be submitted to: Ruth A. Celtnieks, Reports Clearance Officer, AHCPR, 2101 East Jefferson Street, Suite 500, Rockville, MD 20852-4908.

All comments will become a matter of public record.

FOR FURTHER INFORMATION CONTACT: Ruth A. Celtnieks, AHCPR Reports Clearance Officer, (301) 594-1406, ext. 1497.

SUPPLEMENTARY INFORMATION:

Proposed Project

"Medical Expenditure Panel Survey Household Component (MEPS-HC)—Panels 3 and 4."

The AHCPR intends to conduct an annual panel survey of U.S. households to collect information on a variety of measures related to health status, health insurance coverage, health care use and expenditures, and sources of payment for health services. Each panel consists of a nationally representative sample of U.S. households who remain in MEPS for two consecutive years of data collection. The first two panels of MEPS began in 1996 and 1997. Panels 3 and

4 of the MEPS-HC begin in 1998 and 1999, respectively. The MEPS-HC is jointly sponsored by the AHCPR and the National Center for Health Statistics (NCHS). It will be conducted using a sample of households selected from households which responded to the National Health Interview Survey (NHIS) sponsored by NCHS. The NHIS is a household survey which collects health related data from approximately 50,000 households and 110,000 people. Due to the Department of Health and Human Services (HHS) efforts to integrate survey data collection activities, the NHIS is used as the sampling frame for the MEPS and several other surveys.

Data to be collected from each household include detailed information on demographics, health conditions, current health status, utilization of health care providers, charges and payments for health care services, medications, employment and health insurance. Subject to AHCPR and NCHS confidentiality statutes, data will be made available through publications, articles in major journals as well as public use data files. The data are intended to be used for purposes such as:

- Generating national estimates of individual and family health care use and expenditures, private and public health insurance coverage, and the availability, costs and scope of private health insurance benefits among Americans;
- Examining the effects of changes in how chronic care and disability are managed and financed;
- Evaluating the growing impact of managed care and of enrollment in different types of managed care plans; and
- Examining access to and costs of health care for common diseases and conditions, prescription drug use, and other health issues.

Statisticians and researchers will use these data to make important generalizations on the civilian non-institutionalized population of the United States, as well as to conduct research in which the family is the unit of analysis.

Method of Collection

The data will be collected using a combination of modes. For example, the AHCPR intends to introduce study participants to the survey through advance mailings. The first contact will provide the household with information regarding the importance and uses of the information obtained. The AHCPR will then conduct five (in-person) interviews with each household to

obtain health care use and expense data. Lastly, the AHCPR will conduct one telephone interview with each household to obtain tax and asset information. Data will be collected using a computer-assisted personal interviewing method (CAPI). In certain cases, AHCPR will conduct interviews over the telephone, if necessary. Burden estimates follow:

Initial Number of Respondents: 10,000.

Panel 3: 4800.

Panel 4: 5200.

Number of Surveys Per Respondent: 6.
Average Burden Per Respondent: 9.0 hours.

Estimated Burden Total: 81,100 hours.

Panel 3: 39,050 hours.

Panel 4: 42,050 hours.

Request for Comments

Comments are invited on: (a) the necessity of the proposed collection; (b) the accuracy of the Agency's estimate of burden of the proposed collection of information; (c) ways to enhance the quality, utility and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including the use of automated collection techniques or other forms of information technology.

Comments submitted in response to this notice will be summarized and/or included in the request for OMB approval of this information collection.

Copies of these proposed collection plans and instruments can be obtained from the AHCPR Reports Clearance Officer (see above).

Dated: September 2, 1997.

John M. Eisenberg,

Administrator.
