NUCLEAR REGULATORY COMMISSION

[IA 97-068]

Order Superseding Order Prohibiting Involvement in NRC-Licensed Activities (Effective Immediately)

I

Aharon Ben-Haim, Ph.D. (Dr. Ben-Haim), Medical Physicist, Upper Montclair, New Jersey, is a contractor consultant for Newark Medical Associates, P.A. (licensee), the holder of Byproduct Nuclear Material License No. 29-30282-01 (license) issued by the Nuclear Regulatory Commission (NRC or Commission) pursuant to 10 CFR Part 30. The license authorizes possession and use of any radiopharmaceutical identified in 10 CFR 35.200 for any imaging and localization procedure approved in 10 CFR 35.200. The license was originally issued on September 25, 1996, and is due to expire on September 30, 2001.

II

During a new license inspection conducted on January 29, 1997, at the licensee's facility, several apparent violations of NRC requirements were identified. Subsequent to the inspection, the NRC initiated an investigation which led the NRC to issue to Dr. Ben-Haim, on July 31, 1997, an Order Prohibiting Involvement in NRC Licensed Activities (Effective Immediately) Pending Further Order (62 FR 43357). That Order was issued pending completion of the NRC staff review of the results of the investigation, which was conducted by the NRC's Office of Investigations (OI). The NRC staff's review of the results of the OI investigation is now complete.

III

The OI investigation focused in part on Dr. Ben-Haim's actions in causing the licensee to be in violation of NRC requirements. The NRC learned during the investigation that Dr. Ben-Haim, in his capacity as a contractor-consultant to the licensee, had prepared the license application (NRC Form 313) dated February 21, 1996, for Newark Medical Associates, and that the license application was inaccurate in that it named Gerard W. Moskowitz, M.D., (Dr. Moskowitz) as the only authorized user and Radiation Safety Officer (RSO) without Dr. Moskowitz's consent or knowledge, and without Dr. Moskowitz's ever having been affiliated or associated with the licensee. Dr. Moskowitz did not ever perform the role of authorized user or RSO at the licensee's facility, and did not become aware that he was listed on the application and the license until notified by the NRC on February 6, 1997, more than four months after the license was originally issued. These inaccurate statements in the license application prepared by Dr. Ben-Haim, formed, in part, the basis for the issuance of the license to Newark Medical Associates on September 25, 1996.

During the period from November 1997 through February 6, 1997, Dr. Ben-Haim, in his role as contractor-consultant to the licensee, aided and assisted the licensee in continuing to conduct NRC-licensed activities even though the licensee did not employ the authorized user or the RSO named in the license application and, subsequently, on the NRC license, nor did the named individual serve in these capacities. Based on the results of the OI investigation, the NRC has determined that Dr. Ben-Haim's actions constitute
