ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 52

[IL145-2, IL152-2; FRL-5890-1]

Approval and Promulgation of Implementation Plan; Illinois Designation of Areas for Air Quality Planning Purposes; Illinois

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule; extension of the public comment period.

SUMMARY: On July 22, 1997, the EPA published a proposed rule (62 FR 39199) proposing limited approval and limited disapproval of the Granite City portion of a State Implementation Plan

(SIP) revision request which was submitted by the State of Illinois on November 14, 1995, May 9, 1996, June 14, 1996, and February 3, 1997, to meet commitments related to the conditional approval of Illinois' May 15, 1992, SIP submittal for the Lake Calumet (SE Chicago), McCook, and Granite City, Illinois, Particulate Matter (PM) nonattainment areas. The proposed limited approval and limited disapproval action entails approval of the submitted regulations into the Illinois SIP for their strengthening effect, and disapproval of the submittal for not meeting all of the commitments of the conditional approval. All of the deficiencies were corrected, except that Illinois failed to provide an opacity limit for coke oven combustion stacks which is reflective of their mass limits. In the same notice, the EPA also proposed to disapprove Illinois' March 19, 1996, and October 15, 1996, request to redesignate the Granite City area to attainment for PM because the area does not have a fully approved implementation plan. The EPA is announcing a 60-day extension of the public comment period on the July 22, 1997, proposed rule.

DATES: Written comments on the July 22, 1997, proposed rule must be received on or before October 20, 1997.
