

groundwater users, no surface water impact attributable to the discharge and the site is wholly owned by NEC.

2. The remedial objective to eliminate the potential for contact with contaminated soil was achieved by placement of the excavated drainage ditch soil in the sludge lagoon. The excavated area was filled, graded, and vegetated.

3. The remedial objective to eliminate the potential for exposure to buried contaminated soil was met by access restriction by NEC ownership, since the area is already capped preventing casual exposure. A restriction in the property deed prevents future development in the seepage pit area.

4. The remedial objective to eliminate contact with buried sludge and contaminated soil was achieved by excavation of the contaminated materials and stabilization in the sludge lagoon. The dump site would be backfilled with native soil following excavation to its former grade.

No comments were received during the 30 day public comment period beginning August 27, 1987. Although an opportunity for a public meeting to discuss the remedy selection was provided, no interest in such a meeting was expressed by the public.

On September 30, 1987, the Regional Administrator approved a Record of Decision (ROD) which selected the following remedies:

*A. Source Control.* 1. Excavate and place contaminated materials from the drainage ditch and sludge dump site in the sludge lagoon for solidification.

2. All contaminated materials in the sludge lagoon would be solidified, and the lagoon would be provided a RCRA soil waste cover and monitored for proper closure.

3. Restrict access and apply deed restrictions to the seepage pit property.

*B. Management of Migration.* Ground water contamination would be regulated and monitored through the use of alternate concentration limits (ACLs) to be applied downgradient of the sludge lagoon and the seepage pit.

*C. Operation and Maintenance.* The cover over the sludge lagoon and the seepage pit would be routinely inspected and monitored. Semi-annual groundwater sampling and analyses at compliance monitoring wells would be conducted.

Construction activities at the Site were performed by NEC in accordance with the remedy selected in the September 30, 1987 ROD. The Remedial Construction Activities started at the Site on June 6, 1988. A Closeout Report was signed September 29, 1989, confirmatory sampling verified that the

ROD cleanup objectives have been achieved and all cleanup actions specified in the ROD have been implemented.

In June, 1994, a Five-Year Review was conducted. The Five-Year Review provided a basis for the Site deletion from the NPL. The report states that remedial actions implemented at the Site continuously remain protective of the public and the environment. Based on the reported groundwater monitoring results, all the Site related chemicals of concern are below the alternate concentration limits (ACLs).

EPA, with concurrence from the State of Wisconsin, has determined that all appropriate responses under CERCLA at the Northern Engraving Corporation Site have been completed by the responsible party, and no further CERCLA response actions are appropriate in order to provide protection of human health and environment. Therefore, EPA proposes to delete the Site from the NPL.

Dated: August 29, 1997.

**Michelle D. Jordan,**

*Acting Regional Administrator, U.S. EPA, Region V.*

## FEDERAL COMMUNICATIONS COMMISSION

### 47 CFR Part 73

[MM Docket No. 97-195; RM-9126]

#### Radio Broadcasting Services; Haiku, HI

**AGENCY:** Federal Communications Commission.

**ACTION:** Proposed rule.

**SUMMARY:** This document requests comments on a petition for rule making filed on behalf of Native Hawaiian Broadcasting seeking the allotment of Channel 293C to Haiku, Hawaii, as that community's first local FM service. Coordinates utilized for this proposal are 20-55-03 and 156-19-33.

**DATES:** Comments must be filed on or before October 27, 1997, and reply comments on or before November 12, 1997.

**ADDRESSES:** Secretary, Federal Communications Commission, Washington, DC 20554. In addition to filing comments with the FCC, interested parties should serve the petitioner's counsel, as follows: Dan J. Alpert, Esq., The Law Office of Dan J. Alpert, 2120 N. 21st Rd., Suite 400, Arlington, VA 22201.

**FOR FURTHER INFORMATION CONTACT:** Nancy Joyner, Mass Media Bureau, (202) 418-2180.

**SUPPLEMENTARY INFORMATION:** This is a synopsis of the Commission's Notice of Proposed Rule Making, MM Docket No. 97-195, adopted August 27, 1997, and released September 5, 1997. The full text of this Commission decision is available for inspection and copying during normal business hours in the FCC's Reference Center (Room 239), 1919 M Street, NW., Washington, DC. The complete text of this decision may also be purchased from the Commission's copy contractor, International Transcription Service, Inc., 1231 20th Street, NW., Washington, DC 20036, (202) 857-3800.

Provisions of the Regulatory Flexibility Act of 1980 do not apply to this proceeding.

Members of the public should note that from the time a Notice of Proposed Rule Making is issued until the matter is no longer subject to Commission consideration or court review, all *ex parte* contacts are prohibited in Commission proceedings, such as this one, which involve channel allotments. See 47 CFR 1.1204(b) for rules governing permissible *ex parte* contacts.

For information regarding proper filing procedures for comments, See 47 CFR 1.415 and 1.420.
