

## DEPARTMENT OF THE INTERIOR

## Fish and Wildlife Service

## 50 CFR Part 17

**Endangered and Threatened Wildlife and Plants; Review of Plant and Animal Taxa That Are Candidates or Proposed for Listing as Endangered or Threatened, Annual Notice of Findings on Recycled Petitions, and Annual Description of Progress on Listing Actions**

**AGENCY:** Fish and Wildlife Service, Interior.

**ACTION:** Notice of review.

**SUMMARY:** In this document, the Fish and Wildlife Service (Service) presents an updated list of plant and animal taxa native to the United States that are regarded as candidates or proposed for possible addition to the Lists of Endangered and Threatened Wildlife and Plants under the Endangered Species Act of 1973, as amended (Act). Identification of candidate taxa can assist environmental planning efforts by providing advance notice of potential listings, allowing resource managers to alleviate threats and thereby possibly remove the need to list taxa as endangered or threatened. Even if a candidate taxon is subsequently listed, the early notice provided here could result in fewer restrictions on activities by prompting candidate conservation measures to alleviate threats to the taxon.

The Service requests additional status information that may be available for the identified candidate taxa and information indicating that taxa not presently regarded as candidates should be included in future updates of this list. This information will be considered in preparing listing documents and future revisions to the notice of review. It will also help the Service monitor changes in the status of candidate taxa and in candidate conservation activities.

The Service announces the availability of listing priority assignment forms for candidate taxa and listing priority determinations for proposed taxa. These documents describe the status and threats which were evaluated in order to assign a listing priority number to each taxon.

The Service also announces its findings on recycled petitions and describes its progress in revising the Lists of Endangered and Threatened Wildlife and Plants during the period February 28, 1996, to September 3, 1997.

**DATES:** Comments on the candidate notice of review will be accepted at any

time. The information on candidate taxa will be revised and updated continually by the Regional Offices identified as having lead responsibility for the particular taxa. The Service anticipates publishing annually an update of the candidate notice of review, annual notice of findings on recycled petitions, and annual description of progress on listing actions.

**ADDRESSES:** Interested persons or organizations should submit comments regarding a particular taxon to the Regional Director of the Region identified as having the lead responsibility for that taxon. Comments of a more general nature may be submitted to the Chief, Division of Endangered Species, U.S. Fish and Wildlife Service, 1849 C Street, NW., Mail Stop 452 ARLSQ, Washington, DC 20240. Information regarding the range, status, and habitat needs of and listing priority assignment for a particular taxon is available for review at the appropriate Regional Office listed below or at the Division of Endangered Species, 4401 N. Fairfax Drive, Room 452, Arlington, Virginia 22203 (703/358-2171). Written comments and materials received in response to this document will be available for public inspection by appointment at the appropriate Regional Office listed below.

*Region 1.* California, Commonwealth of the Northern Mariana Islands, Hawaii, Idaho, Nevada, Oregon, Pacific Territories of the United States, and Washington.

Regional Director (TE), U.S. Fish and Wildlife Service, Eastside Federal Complex, 911 N.E. 11th Avenue, Portland, Oregon 97232-4181 (503/231-6131).

*Region 2.* Arizona, New Mexico, Oklahoma, and Texas.

Regional Director (TE), U.S. Fish and Wildlife Service, 500 Gold Avenue S.W., P.O. Box 1306, Albuquerque, New Mexico 87103-1306 (505/248-6671).

*Region 3.* Illinois, Indiana, Iowa, Michigan, Minnesota, Missouri, Ohio, and Wisconsin.

Regional Director (TE), U.S. Fish and Wildlife Service, Federal Building, One Federal Drive, Fort Snelling, Minnesota 55111-4056 (612/725-3276).

*Region 4.* Alabama, Arkansas, Florida, Georgia, Kentucky, Louisiana, Mississippi, North Carolina, South Carolina, Tennessee, Puerto Rico, and the U.S. Virgin Islands.

Regional Director (TE), U.S. Fish and Wildlife Service, 75 Spring Street, SW, Suite 1276, Atlanta, Georgia 30345-3319 (404/679-7096).

*Region 5.* Connecticut, Delaware, District of Columbia, Maine, Maryland,

Massachusetts, New Hampshire, New Jersey, New York, Pennsylvania, Rhode Island, Vermont, Virginia, and West Virginia.

Regional Director (TE), U.S. Fish and Wildlife Service, 300 Westgate Center Drive, Hadley, Massachusetts 01035-9589 (413/253-8615).

*Region 6.* Colorado, Kansas, Montana, Nebraska, North Dakota, South Dakota, Utah, and Wyoming.

Regional Director (TE), U.S. Fish and Wildlife Service, P.O. Box 25486, Denver Federal Center, Denver, Colorado 80225-0486 (303/236-7398).

*Region 7.* Alaska.

Regional Director (TE), U.S. Fish and Wildlife Service, 1011 East Tudor Road, Anchorage, Alaska 99503-6199 (907/786-3605).

**FOR FURTHER INFORMATION CONTACT:** The Endangered Species Coordinator(s) in the appropriate Regional Office(s) (see phone numbers in **ADDRESSES** section) or E. LaVerne Smith, Chief, Division of Endangered Species, (703) 358-2171.

**SUPPLEMENTARY INFORMATION:****Background***Candidate Notice of Review*

The Endangered Species Act of 1973, as amended (Act) (16 U.S.C. 1531 *et seq.*), requires the Service to identify taxa of wildlife and plants that are endangered or threatened, based on the best available scientific and commercial information. As part of the program to accomplish this, the Service has maintained a list of taxa regarded as candidates for listing. The Service maintains this list for a variety of reasons, including: to provide advance knowledge of potential listings that could affect decisions of environmental planners and developers; to solicit input from interested parties to identify those candidate taxa that may not require protection under the Act or additional taxa that may require the Act's protections; and to solicit information needed to prioritize the order in which taxa will be proposed for listing. At present, there are 207 taxa included in Table 1 of this notice that are considered by the Service as candidates for possible addition to the Lists of Endangered and Threatened Wildlife and Plants, as well as 99 taxa for which proposed rules to list have been published. The Service encourages their consideration in environmental planning, such as in environmental impact analysis under the National Environmental Policy Act of 1969 (implemented at 40 CFR parts 1500-1508). Table 2 of this notice contains taxa identified as candidates in the 1996 Candidate Notice of Review which have

been removed from candidate status, taxa identified as proposed species in the 1996 notice which have been listed as threatened or endangered, and taxa identified as proposed species in the 1996 notice for which proposed rules have been withdrawn. The Service intends to publish an updated combined notice of review for animals and plants annually in the **Federal Register**.

#### *Findings on Recycled Petitions*

Section 4(b)(3) of the Act sets out required procedures for responding to petitions under the Act (i.e., petitions to revise the lists of Endangered and Threatened Wildlife and Plants or to designate or revise critical habitat for listed taxa). Section 4(b)(3)(B) requires the Service to make one of the following 12-month findings on each petition presenting substantial information: (i) The petitioned action is not warranted; (ii) the petitioned action is warranted and will be proposed promptly; or (iii) the petitioned action is warranted but precluded by other actions to revise the lists. A taxon for which a petition to list is found to be not warranted is not added to the list of candidates, or is removed from the list of candidates if it was a candidate at the time the petition was received. Petitioned actions found to be warranted are the subjects of proposed rules that are published promptly in the **Federal Register**. Taxa for which a petition to list is determined to be warranted but precluded by other actions to revise the lists are maintained as candidates. Petitions for which a finding of "warranted but precluded" was made require a new finding within a year after the most recent "warranted but precluded" finding; these petitions are then called recycled petitions. This notice reports administrative findings on recycled petitions that became due during the period February 28, 1996, to September 3, 1997. Although it has not published notices of its findings on recycled petitions annually in the past, the Service intends to publish these notices annually beginning with this notice.

#### *Progress in Revising the Lists*

As described in section 4(b)(3)(B)(iii) of the Act, in order for the Service to make a "warranted but precluded" finding on a petitioned action, the Service must be making expeditious progress to add qualified taxa to the Lists of Endangered and Threatened Wildlife and Plants and to remove from the lists taxa for which the protections of the Act are no longer necessary. This notice describes the Service's annual progress in revising the lists during the period February 28, 1996, to September

3, 1997. Although it has not published descriptions of its annual progress on listing actions in the past, the Service intends to publish these descriptions annually beginning with this notice.

#### **Findings on Recycled Petitions**

The Service reviewed the current status of and threats to the taxa which were the subjects of the 18 recycled petitions that became due during the period February 28, 1996, to September 3, 1997, to determine whether any changes to the listing priority assignments for these taxa were necessary. As a result of this review, the Service has made continued "warranted but precluded" findings on all of these petitions. These taxa are maintained as candidates and are identified in Table 1 by the code "C(w)" in the category column on the left side of the table.

#### **Progress in Revising the Lists**

The Service's progress in listing and delisting qualified taxa during the period February 28, 1996, to September 3, 1997, is represented by the publication in the **Federal Register** of final listing actions for 152 taxa, proposed listing actions for 23 taxa, a proposed delisting action for 1 taxon, and withdrawals of proposed rules for 13 taxa. One taxon proposed for listing as threatened due to similarity of appearance, the southern population of the bog turtle (*Clemmys muhlenbergii*), is not included in the counts above.

The relatively small number of proposed listing actions for the subject time period is a consequence of the Service's listing priority guidance, published on May 16, 1996 (61 FR 24722), September 17, 1996 (61 FR 48962), and December 5, 1996 (61 FR 64475), which was developed in response to two related events: (1) The lifting, on April 26, 1996, of the moratorium on final listings imposed on April 10, 1995 (Public Law 104-6), and (2) the restoration of significant funding for listing through passage of the omnibus budget reconciliation law on April 26, 1996, following severe funding constraints imposed by a number of continuing resolutions between November 1995 and April 1996. The guidance clarifies the order in which the Service will process rulemakings giving highest priority to handling emergency situations, second highest priority to resolving the listing status of the outstanding proposed listings, third highest priority to processing new proposals to add species to the lists and processing administrative findings on petitions to add species to the lists, and lowest priority to processing final or proposed critical habitat designations,

delistings, and reclassifications from endangered to threatened status. Because of the large backlog of outstanding proposed listings (second highest priority actions) caused by the listing moratorium, the Service was able to process only 23 new proposals to add species to the lists (third highest priority actions).

#### **Notice of Review**

##### *Previous Notices of Review*

The Act directed the Secretary of the Smithsonian Institution to prepare a report on endangered and threatened plant taxa, which was published as House Document No. 94-51. The Service published a notice in the **Federal Register** on July 1, 1975 (40 FR 27823), in which it announced that more than 3,000 native plant taxa named in the Smithsonian's report and other taxa added by the 1975 notice would be reviewed for possible inclusion in the List of Endangered and Threatened Plants. The 1975 notice was superseded on December 15, 1980 (45 FR 82479), by a new comprehensive notice of review for native plants that took into account the earlier Smithsonian report and other accumulated information. On November 28, 1983 (48 FR 53640), a supplemental plant notice of review noted changes in the status of various taxa. The Service published complete updates of the plant notice on September 27, 1985 (50 FR 39526), February 21, 1990 (55 FR 6184), September 30, 1993 (58 FR 51144), and, as part of a combined animal and plant notice, on February 28, 1996 (61 FR 7596).

Previous animal notices of review included many of the animal taxa in the accompanying Table 1. The Service published earlier comprehensive reviews for vertebrate animals in the **Federal Register** on December 30, 1982 (47 FR 58454), and on September 18, 1985 (50 FR 37958). An initial comprehensive review for invertebrate animals was published on May 22, 1984 (49 FR 21664). The Service published a combined animal notice of review on January 6, 1989 (54 FR 554), and with minor corrections on August 10, 1989 (54 FR 32833). The Service again published comprehensive animal notices on November 21, 1991 (56 FR 58804), November 15, 1994 (59 FR 58982), and, as part of a combined animal and plant notice, on February 28, 1996 (61 FR 7596). This revised notice supersedes all previous animal, plant, and combined notices of review.

### Relation to Prior Notices of Review

Two classes of taxa, candidate taxa and proposed taxa, are included in Table 1 of this notice. Candidate taxa are those taxa for which the Service has on file sufficient information on biological vulnerability and threats to support issuance of a proposed rule to list, but issuance of the proposed rule is precluded. The Service emphasizes that these candidate taxa are not being proposed for listing by this notice, but development and publication of proposed rules for such candidate taxa are anticipated. The Service encourages other Federal agencies to give consideration to these taxa in environmental planning. The Service determines the relative listing priority of candidate taxa in accordance with general listing priority guidelines published in the **Federal Register** on September 12, 1983 (48 FR 43098), and with Fiscal Year 1997 listing priority guidelines published on December 5, 1996 (61 FR 64475).

Proposed taxa are those taxa for which a proposed rule to list as endangered or threatened has been published in the **Federal Register** (exclusive of taxa for which the proposed rule has been withdrawn or finalized).

### Current Notice of Review

The Service gathers data on plants and animals native to the United States that appear to merit consideration for addition to the Lists of Endangered and Threatened Wildlife and Plants. This notice identifies those taxa (including, by definition, biological species, subspecies, and certain distinct population segments of vertebrate animals, and biological species, subspecies, and varieties of plants) that are presently regarded by the Service as candidates for addition to the Lists of Endangered and Threatened Wildlife and Plants. In issuing this compilation, the Service relies on information from status surveys conducted for candidate assessment and on information from State Natural Heritage Programs, other State and Federal agencies (such as the Forest Service and the Bureau of Land Management), knowledgeable scientists, public and private natural resource interests, and comments received in response to previous notices of review.

Tables 1 and 2 are arranged alphabetically by names of genera, species, and relevant subspecies and varieties under the major group headings for animals first, then plants. Animals are grouped by class or order. Plants are subdivided into three groups: flowering plants, conifers and cycads,

and ferns and their allies. Useful synonyms and subgeneric scientific names appear in parentheses (the synonyms preceded by an equal sign). Several taxa that have not yet been formally described in the scientific literature have been included; such taxa are identified by a generic or specific name (in italics) followed by "sp." or "ssp." Standardized common names are incorporated in these notices as they become available. The flux in common names, the inclusion of vernacular and composite subspecific names, and the fact that a majority of invertebrates still lack a standardized name combine to make common names relatively useless for organizing the tables.

Table 1 lists all taxa regarded by the Service as candidates for listing and all taxa proposed for listing under the Act. Table 2 lists those taxa that were classified either as candidates or proposed for listing in the 1996 notice of review, but are no longer classified as candidates or proposed taxa.

Taxa in Table 1 of this notice are assigned to several status categories, noted in the "Category" column at the left side of the table. Codes for the category status column of taxa in Table 1 are explained below:

- PE—Taxa proposed to be listed as endangered.
- PT—Taxa proposed to be listed as threatened.
- Y—Synonyms of taxa that are listed elsewhere in Table 1.
- C—Candidates: Taxa for which the Service has on file sufficient information on biological vulnerability and threats to support proposals to list them as endangered or threatened taxa. Proposed rules have not yet been issued because this action is precluded at present by other listing activity. This category includes taxa for which a "warranted but precluded" 12-month petition finding has been issued. This category also includes taxa for which a "warranted but precluded" 12-month petition finding has been recycled; these taxa are identified by the code "C(w)" in the category column. Development and publication of proposed rules for candidate taxa are anticipated. The Service encourages State and other Federal agencies as well as other affected parties to give consideration to these taxa in environmental planning.

The column labeled "Priority" indicates the listing priority number for candidate taxa. This number is assigned on the basis of immediacy and magnitude of threats as well as taxonomic status. A complete

description of the Service's listing priority system was published in a September 21, 1983, **Federal Register** notice (48 FR 43098); additional guidelines for assigning listing priorities during Fiscal Year 1997 were published on December 5, 1996 (61 FR 64475).

The third column identifies the Regional Office (numeric code) to which comments or questions should be directed (see **ADDRESSES** section). Comments received in response to the 1996 notice of review were provided for review to the Region having lead responsibility for each candidate taxon mentioned in the comment. The Service will likewise consider all information provided in response to this notice of review in deciding whether to propose taxa for listing and when to undertake necessary listing actions. Comments received will become part of the administrative record for the taxa mentioned.

Following the scientific name of each taxon (fourth column) is the family designation (fifth column) and any common name (sixth column). The seventh column provides the known historical range for each included taxon, indicated by postal code abbreviations for States and U.S. territories (many taxa no longer occur in all of the areas shown). In the section on birds, the abbreviation "N" indicates the nesting range of the taxon, and the abbreviation "V" indicates additional areas in which the taxon spends other parts of its life cycle.

Taxa in Table 2 of this notice were included either as proposed taxa or as candidates in the 1996 notice of review but have since been removed from such status for a variety of reasons. Many of the taxa listed in the last notice of review as proposed have now been added to the Lists of Endangered or Threatened Wildlife and Plants. The first column indicates the present status of the taxa, using the following codes:

- E—Taxa that have been listed as endangered.
- T—Taxa that have been listed as threatened.
- R—Taxa for which currently available information does not support issuance of a proposed listing and taxa for which a proposed listing has been withdrawn.
- Y—Synonyms of taxa listed elsewhere in Table 2.

The second column provides a coded explanation of why the taxon is no longer regarded as a candidate taxon. Descriptions of the codes are as follows:

- A—Taxa that have proven to be more abundant or widespread than previously believed and taxa that

have proven not to be subject to a degree of threats sufficient to warrant issuance of a proposed listing or continuance of candidate status.

F—Taxa removed from candidate status because the range is no longer a U.S. Territory.

I—Taxa for which the Service has insufficient information on biological vulnerability and threats to support issuance of a proposed rule to list.

L—Taxa added to the Lists of Endangered or Threatened Wildlife and Plants.

M—Taxa mistakenly included as candidates in the last notice of review.

N—Taxa that on the basis of current taxonomic understanding do not meet the Act's definition of "species."

X—Taxa that are believed to be extinct.

The columns describing lead region, scientific name, family, common name, and historic range include information as previously described for Table 1.

One taxon included in Table 2 of this notice, *Scleroactis brevispinus* (Pariette cactus), was mistakenly included in Table 1 in the 1996 candidate notice of review. Until it was described as a new species in 1994, *S. brevispinus* was included in *Scleroactis glaucus* (Uinta Basin hookless cactus), a threatened species. Because *S. brevispinus* was a part of *S. glaucus* when the latter species was listed as threatened, those plants now referred to as *S. brevispinus* are still considered to be listed as threatened. Therefore, including *S. brevispinus* as a candidate in the 1996 notice of review

was inappropriate and unnecessary. To address the recent change in taxonomy, a proposed rule to add *S. brevispinus* to the List of Endangered and Threatened Plants will be published in the **Federal Register** at a later time.

**Summary**

Over the past year, the Service reviewed the available information on candidate taxa to ensure that issuance of a proposed listing is justified for each taxon and to reevaluate the relative listing priority assignment of each taxon. The Service undertook this effort to ensure that it was focusing conservation efforts on those taxa at greatest risk. As of September 3, 1997, there are 51 plants and 20 animals proposed for endangered status; 20 plants and 8 animals proposed for threatened status; and 107 plant and 100 animal candidates awaiting preparation of proposed rules (see Table 1). There are 181 taxa that were classified as either proposed for listing or candidates in the 1996 notice of review that are no longer classified in those categories (see Table 2).

**Request for Information**

The Service hereby requests that any further information on the taxa named in this notice be submitted as soon as possible or whenever it becomes available. Especially sought is information:

- (1) indicating that a taxon should be removed from this list;
- (2) indicating that a taxon not included in the notice should be added to the list of candidate taxa;

(3) recommending an area as critical habitat for a candidate taxon, or indicating that a proposal of critical habitat would not be prudent for a taxon;

(4) documenting threats to any of the included taxa;

(5) describing the immediacy or magnitude of threats facing candidate taxa;

(6) pointing out taxonomic or nomenclatural changes for any of the taxa;

(7) suggesting appropriate common names; or

(8) noting any mistakes, such as errors in the indicated historical ranges.

**Authors**

This notice was compiled from evaluations by staff biologists in the Service's Regional and Field offices. It was compiled and edited by Dr. Joan Canfield, Martin Miller, Dr. Joy Nicholopoulos, and Dr. George Drewry of the Service's Headquarters Office.

**List of Subjects in 50 CFR Part 17**

Endangered and threatened species, Exports, Imports, Reporting and recordkeeping requirements, Transportation.

**Authority**

This notice is published under the authority of the Endangered Species Act (16 U.S.C. 1531 *et seq.*).

Dated: September 3, 1997.

**Jamie Rappaport Clark,**

*Director, U.S. Fish and Wildlife Service.*

TABLE 2.—FORMER CANDIDATE AND FORMER PROPOSED ANIMALS AND PLANTS

Status		Lead Region	Scientific name	Family	Common name	Historic range
Code	Expl.					
MAMMALS.						
R	N	R2	<i>Conepatus leuconotus texensis</i>	Mustelidae	Skunk, Gulf Coast hog-nosed	U.S.A. (TX), Mexico
E	L	R2	<i>Panthera onca</i>	Felidae	Jaguar (U.S. pop.)	U.S.A. (AZ, CA, LA, NM, TX)
BIRDS.						
E	L	R2	<i>Glaucidium brasilianum cactorum</i>	Strigidae	Pygmy-owl, cactus ferruginous (AZ pop.)	U.S.A. (AZ), Mexico
R	A	R2	<i>Glaucidium brasilianum cactorum</i>	Strigidae	Pygmy-owl, cactus ferruginous (TX pop.)	U.S.A. (TX), Mexico
T	L	R7	<i>Polysticta stelleri</i>	Anatidae	Eider, Steller's (AK breeding pop.)	U.S.A. (AK), Russia
REPTILES.						
T	L	R3	<i>Nerodia erythrogaster neglecta</i>	Colubridae	Snake, copperbelly water (northern pop.)	U.S.A. (IN, MI, OH)
R	A	R3	<i>Nerodia erythrogaster neglecta</i>	Colubridae	Snake, copperbelly water (southern pop.)	U.S.A. (IL, IN, KY)
R	A	R1	<i>Phrynosoma mcallii</i>	Iguanidae	Lizard, flat-tailed horned	U.S.A. (AZ, CA), Mexico
AMPHIBIANS.						
E	L	R2	<i>Ambystoma tigrinum stebbinsi</i>	Ambystomatidae	Salamander, Sonoran tiger	U.S.A. (AZ), Mexico
T	L	R4	<i>Eleutherodactylus cooki</i>	Leptodactylidae	Guajón or rock frog	U.S.A. (PR)
E	L	R2	<i>Eurycea sosorum</i>	Plethodontidae	Salamander, Barton Springs	U.S.A. (TX)
T	L	R1	<i>Rana aurora draytonii</i>	Ranidae	Frog, California red-legged	U.S.A. (CA), Mexico
R	A	R2	<i>Rana subaquavocalis</i>	Ranidae	Frog, Ramsey Canyon leopard	U.S.A. (AZ)
FISHES.						
R	X	R1	<i>Gila bicolor</i> ssp.	Cyprinidae	Chub, High Rock Spring tui	U.S.A. (CA, NV)
R	A	R1	<i>Salvelinus confluentus</i>	Salmonidae	Trout, bull (coastal/Puget Sound pop.)	U.S.A. (CA, ID, MT, NV, OR, WA), Canada
R	A	R1	<i>Salvelinus confluentus</i>	Salmonidae	Trout, bull (Jarbidge R. pop.)	U.S.A. (CA, ID, MT, NV, OR, WA), Canada
R	A	R1	<i>Salvelinus confluentus</i>	Salmonidae	Trout, bull (Saskatchewan R. pop.)	U.S.A. (CA, ID, MT, NV, OR, WA), Canada
CLAMS.						
E	L	R4	<i>Alasmodonta atropurpurea</i> (Rafinesque, 1831).	Unionidae	Elktoe, Cumberland	U.S.A. (KY, TN)
E	L	R4	<i>Epioblasma brevidens</i> (I. Lea, 1831)	Unionidae	Combshell, Cumberlandian	U.S.A. (AL, KY, TN, VA)
E	L	R4	<i>Epioblasma capsaeformis</i> (I. Lea, 1834).	Unionidae	Mussel, oyster	U.S.A. (AL, KY, TN, VA)
E	L	R4	<i>Quadrula cylindrica strigillata</i> (B.H. Wright, 1898).	Unionidae	Rabbitsfoot, rough	U.S.A. (KY, TN, VA)
E	L	R4	<i>Villosa perpurpurea</i> (I. Lea, 1861)	Unionidae	Bean, purple	U.S.A. (TN, VA)
INSECTS.						
R	A	R1	<i>Pleocoma conjugens conjugens</i>	Scarabaeidae	Beetle, Santa Cruz rain	U.S.A. (CA)
R	X	R1	<i>Drosophila alsophila</i>	Drosophilidae	Pomace fly, [no common name]	U.S.A. (HI)
R	X	R1	<i>Drosophila psilotarsalis</i>	Drosophilidae	Pomace fly, [no common name]	U.S.A. (HI)
R	X	R1	<i>Drosophila toxochaeta</i>	Drosophilidae	Pomace fly, [no common name]	U.S.A. (HI)
E	L	R1	<i>Euphydryas editha quino</i> (=E. e. wrighti).	Nymphalidae	Butterfly, Quino checkerspot	U.S.A. (CA), Mexico
R	X	R1	<i>Euploea eleutho</i>	Danaidae	Butterfly, Marianas euploea	U.S.A. (GU, MP)
E	L	R1	<i>Polyphylla barbata</i>	Scarabaeidae	Beetle, Mount Hermon June	U.S.A. (CA)
E	L	R1	<i>Pyrgus ruralis lagunae</i>	Hesperiidae	Skipper, Laguna Mountains	U.S.A. (CA)
E	L	R1	<i>Trimerotropis infantilis</i>	Acrididae	Grasshopper, Zayante band-winged	U.S.A. (CA)
CRUSTACEANS.						
E	L	R1	<i>Branchinecta sandiegoensis</i>	Branchinectidae	Fairy shrimp, San Diego	U.S.A. (CA)
FLOWERING PLANTS.						
E	L	R1	<i>Achyranthes mutica</i>	Amaranthaceae	None	U.S.A. (HI)
E	L	R1	<i>Alsinidendron lychnoides</i>	Caryophyllaceae	Kuawawaenohu	U.S.A. (HI)
E	L	R1	<i>Alsinidendron viscosum</i>	Caryophyllaceae	None	U.S.A. (HI)
E	L	R1	<i>Amaranthus brownii</i>	Amaranthaceae	None	U.S.A. (HI)
E	L	R1	<i>Arabis hoffmannii</i>	Brassicaceae	Hoffmann's rock-cress	U.S.A. (CA)
E	L	R1	<i>Arctostaphylos confertiflora</i>	Ericaceae	Santa Rosa Island manzanita	U.S.A. (CA)
E	L	R1	<i>Arctostaphylos glandulosa</i> ssp. <i>crassifolia</i> .	Ericaceae	Del Mar manzanita	U.S.A. (CA), Mexico

TABLE 2.—FORMER CANDIDATE AND FORMER PROPOSED ANIMALS AND PLANTS—Continued

Status Code	Expl.	Lead Region	Scientific name	Family	Common name	Historic range
R	A	R1	<i>Arctostaphylos imbricata</i>	Ericaceae	San Bruno Mountain manzanita	U.S.A. (CA)
E	L	R1	<i>Astragalus brauntonii</i>	Fabaceae	Braunton's milk-vetch	U.S.A. (CA)
T	L	R1	<i>Baccharis vanessae</i>	Asteraceae	Encinitis baccharis (=coyote bush)	U.S.A. (CA)
E	L	R1	<i>Berberis pinnata</i> ssp. <i>insularis</i>	Berberidaceae	Island barberry	U.S.A. (CA)
E	L	R1	<i>Calystegia stebbinsii</i>	Convolvulaceae	Stebbins' morning-glory	U.S.A. (CA)
T	L	R1	<i>Castilleja campestris</i> ssp. <i>succulenta</i>	Scrophulariaceae	Fleshy owl's-clover	U.S.A. (CA)
T	L	R1	<i>Castilleja levisecta</i>	Scrophulariaceae	Golden paintbrush	U.S.A. (OR, WA), Canada
E	L	R1	<i>Castilleja mollis</i>	Scrophulariaceae	Soft-leaved paintbrush	U.S.A. (CA)
E	L	R1	<i>Ceanothus roderickii</i>	Rhamnaceae	Pine Hill ceanothus	U.S.A. (CA)
E	L	R1	<i>Cenchrus agrimonioides</i>	Poaceae	Kamanomano (=agrimony sandbur)	U.S.A. (HI)
E	L	R1	<i>Cercocarpus traskiae</i>	Rosaceae	Catalina Island mountain-mahogany	U.S.A. (CA)
E	L	R1	<i>Chamaesyce herbsteri</i>	Euphorbiaceae	'Akoko	U.S.A. (HI)
T	L	R1	<i>Chamaesyce hooveri</i>	Euphorbiaceae	Hoover's spurge	U.S.A. (CA)
E	L	R1	<i>Chamaesyce rockii</i>	Euphorbiaceae	'Akoko	U.S.A. (HI)
R	A	R1	<i>Cirsium rathophilum</i>	Asteraceae	Surf thistle	U.S.A. (CA)

R	A	R1	<i>Dudleya densiflora</i>	Crassulaceae	San Gabriel Mountains dudleya	U.S.A. (CA)
T	L	R1	<i>Dudleya nesiotica</i>	Crassulaceae	Santa Cruz Island dudleya	U.S.A. (CA)
R	A	R1	<i>Dudleya</i> sp. nov. /ined. "East Point"	Crassulaceae	Munchkin dudleya	U.S.A. (CA)
T	L	R1	<i>Dudleya verityi</i>	Crassulaceae	Verity's dudleya	U.S.A. (CA)
E	L	R1	<i>Eragrostis fosbergii</i>	Poaceae	Fosberg's love grass	U.S.A. (HI)
E	L	R1	<i>Euphorbia haeleleana</i>	Euphorbiaceae	'Akoko	U.S.A. (HI)
E	L	R1	<i>Fremontodendron californicum</i> ssp. <i>decumbens</i>	Sterculiaceae	Pine Hill flannelbush	U.S.A. (CA)
E	L	R1	<i>Galium buxifolium</i>	Rubiaceae	Island bedstraw	U.S.A. (CA)
E	L	R1	<i>Galium californicum</i> ssp. <i>sierrae</i>	Rubiaceae	El Dorado bedstraw	U.S.A. (CA)
E	L	R1	<i>Gardenia mannii</i>	Rubiaceae	Nanu	U.S.A. (HI)
E	L	R1	<i>Gilia tenuiflora</i> ssp. <i>hoffmannii</i>	Polemoniaceae	Hoffmann's gilia	U.S.A. (CA)
T	L	R1	<i>Helianthemum greenii</i>	Cistaceae	Island rush-rose	U.S.A. (CA)
T	L	R4	<i>Helianthus eggertii</i>	Asteraceae	Eggert's sunflower	U.S.A. (AL, KY, TN)
R	A	R1	<i>Heuchera maxima</i>	Saxifragaceae	Island alumroot	U.S.A. (CA)
E	L	R1	<i>Hibiscadelphus giffardianus</i>	Malvaceae	Hau kuahiwi	U.S.A. (HI)
E	L	R1	<i>Hibiscadelphus hualalaiensis</i>	Malvaceae	Hau kuahiwi	U.S.A. (HI)
E	L	R1	<i>Hibiscadelphus woodii</i>	Malvaceae	Hau kuahiwi	U.S.A. (HI)
E	L	R1	<i>Hibiscus waimeae</i> ssp. <i>hannerae</i>	Malvaceae	Koki'o ke'oke'o	U.S.A. (HI)
E	L	R1	<i>Isodendron laurifolium</i>	Violaceae	Aupaka	U.S.A. (HI)
T	L	R1	<i>Isodendron longifolium</i>	Violaceae	Aupaka	U.S.A. (HI)
E	L	R4	<i>Juglans jamaicensis</i>	Juglandaceae	Nogal or West Indian walnut	U.S.A. (PR), Cuba, Hispaniola
E	L	R1	<i>Kokia kauaiensis</i>	Malvaceae	Koki'o	U.S.A. (HI)

TABLE 2.—FORMER CANDIDATE AND FORMER PROPOSED ANIMALS AND PLANTS—Continued

Status Code	Expl.	Lead Region	Scientific name	Family	Common name	Historic range
E	L	R1	<i>Labordia cyrtandrae</i>	Loganiaceae	Kamakahala	U.S.A. (HI)
E	L	R1	<i>Labordia tinifolia</i> var. <i>wahiawaensis</i>	Loganiaceae	Kamakahala	U.S.A. (HI)
E	L	R1	<i>Lasthenia conjugens</i>	Asteraceae	Contra Costa goldfields	U.S.A. (CA)
E	L	R1	<i>Lepidium arbuscula</i>	Brassicaceae	'Anaunau	U.S.A. (HI)
E	L	R4	<i>Lesquerella perforata</i>	Brassicaceae	Spring Creek bladderpod	U.S.A. (TN)
E	L	R1	<i>Lessingia germanorum</i> (=var. <i>germanorum</i> ).	Asteraceae	San Francisco lessingia	U.S.A. (CA)
E	L	R2	<i>Lilaeopsis schaffneriana</i> ssp. <i>recurva</i> .	Apiaceae	Huachuca water-umbel	U.S.A. (AZ), Mexico
R	A	R1	<i>Limnanthes gracilis</i> ssp. <i>parishii</i>	Limnanthaceae	Parish's meadowfoam	U.S.A. (CA)
E	L	R1	<i>Lithophragma maximum</i>	Saxifragaceae	San Clemente Island woodland-star	U.S.A. (CA)
E	L	R1	<i>Lobelia gaudichaudii</i> ssp. <i>koolauensis</i> .	Campanulaceae	None	U.S.A. (HI)
E	L	R1	<i>Lobelia monostachya</i>	Campanulaceae	None	U.S.A. (HI)
E	L	R1	<i>Lysimachia maxima</i> (= <i>ternifolia</i> )	Primulaceae	None	U.S.A. (HI)
E	L	R1	<i>Malacothamnus fasciculatus</i> var. <i>nesioticus</i> .	Malvaceae	Santa Cruz Island bush-mallow	U.S.A. (CA)
E	L	R1	<i>Malacothrix indecora</i>	Asteraceae	Santa Cruz Island malacothrix	U.S.A. (CA)
E	L	R1	<i>Malacothrix squalida</i>	Asteraceae	Island malacothrix	U.S.A. (CA)
E	L	R1	<i>Melicope saint-johnii</i>	Rutaceae	Alani	U.S.A. (HI)
E	L	R1	<i>Melicope zahlbruckneri</i>	Rutaceae	Alani	U.S.A. (HI)
E	L	R1	<i>Myrsine juddii</i>	Myrsinaceae	Kolea	U.S.A. (HI)
T	L	R1	<i>Myrsine linearifolia</i>	Myrsinaceae	None	U.S.A. (HI)
E	L	R1	<i>Navarretia leucocephala</i> ssp. <i>pauciflora</i> .	Polemoniaceae	Few-flowered navarretia	U.S.A. (CA)
E	L	R1	<i>Navarretia leucocephala</i> ssp. <i>pliantha</i> .	Polemoniaceae	Many-flowered navarretia	U.S.A. (CA)
T	L	R1	<i>Neostaphia colusana</i>	Poaceae	Colusa grass	U.S.A. (CA)
E	L	R1	<i>Neraudia ovata</i>	Urticaceae	None	U.S.A. (HI)
T	L	R1	<i>Orcuttia inaequalis</i>	Poaceae	San Joaquin orcutt grass	U.S.A. (CA)
E	L	R1	<i>Orcuttia pilosa</i>	Poaceae	Hairy (=pilose) orcutt grass	U.S.A. (CA)
T	L	R1	<i>Orcuttia tenuis</i>	Poaceae	Slender orcutt grass	U.S.A. (CA)
E	L	R1	<i>Orcuttia viscida</i>	Poaceae	Sacramento orcutt grass	U.S.A. (CA)
E	L	R1	<i>Panicum niuhauense</i>	Poaceae	Lau 'ehu	U.S.A. (HI)
E	L	R1	<i>Parvisedum leiocarpum</i>	Crassulaceae	Lake County stonecrop	U.S.A. (CA)
E	L	R1	<i>Pentachaeta lyonii</i>	Asteraceae	Lyon's pentachaeta	U.S.A. (CA)
E	L	R1	<i>Phacelia insularis</i> var. <i>insularis</i>	Hydrophyllaceae	Island phacelia	U.S.A. (CA)
E	L	R1	<i>Phyllostegia hirsuta</i>	Lamiaceae	None	U.S.A. (HI)
E	L	R1	<i>Phyllostegia kaalaensis</i>	Lamiaceae	None	U.S.A. (HI)
E	L	R1	<i>Phyllostegia knudsenii</i>	Lamiaceae	None	U.S.A. (HI)
E	L	R1	<i>Phyllostegia parviflora</i>	Lamiaceae	None	U.S.A. (HI)
E	L	R1	<i>Phyllostegia racemosa</i>	Lamiaceae	Kiponapona	U.S.A. (HI)
E	L	R1	<i>Phyllostegia velutina</i>	Lamiaceae	None	U.S.A. (HI)
E	L	R1	<i>Phyllostegia warshaueri</i>	Lamiaceae	None	U.S.A. (HI)
E	L	R1	<i>Phyllostegia wawrana</i>	Lamiaceae	None	U.S.A., (HI)
E	L	R1	<i>Platanthera holochila</i>	Orchidaceae	None	U.S.A. (HI)
E	L	R1	<i>Pleomele hawaiiensis</i>	Liliaceae	Hala pepe	U.S.A. (HI)
E	L	R1	<i>Pritchardia aylmer-robinsonii</i>	Arecaceae	Wahane (=hawane or lo'ulu)	U.S.A. (HI)
E	L	R1	<i>Pritchardia kaalae</i>	Arecaceae	Lo'ulu	U.S.A. (HI)
E	L	R1	<i>Pritchardia napaliensis</i>	Arecaceae	Lo'ulu	U.S.A. (HI)
E	L	R1	<i>Pritchardia remota</i>	Arecaceae	Lo'ulu	U.S.A. (HI)
E	L	R1	<i>Pritchardia schattaueri</i>	Arecaceae	Lo'ulu	U.S.A. (HI)
E	L	R1	<i>Pritchardia viscosa</i>	Arecaceae	Lo'ulu	U.S.A. (HI)
E	L	R1	<i>Pseudobahia bahiifolia</i>	Asteraceae	Hartweg's golden sunburst	U.S.A. (CA)
T	L	R1	<i>Pseudobahia peirsonii</i>	Asteraceae	San Joaquin adobe sunburst	U.S.A. (CA)
E	L	R1	<i>Sanicula purpurea</i>	Apiaceae	None	U.S.A. (HI)
E	L	R1	<i>Schiedea helleri</i>	Caryophyllaceae	None	U.S.A. (HI)
E	L	R1	<i>Schiedea hookeri</i>	Caryophyllaceae	None	U.S.A. (HI)
E	L	R1	<i>Schiedea kauaiensis</i>	Caryophyllaceae	None	U.S.A. (HI)
E	L	R1	<i>Schiedea kealiae</i>	Caryophyllaceae	Ma'oli'oli	U.S.A. (HI)
E	L	R1	<i>Schiedea membranacea</i>	Caryophyllaceae	None	U.S.A. (HI)
E	L	R1	<i>Schiedea nuttallii</i>	Caryophyllaceae	None	U.S.A. (HI)
E	L	R1	<i>Schiedea sarmentosa</i>	Caryophyllaceae	None	U.S.A. (HI)
E	L	R1	<i>Schiedea stellarioides</i>	Caryophyllaceae	Laulihilihi (=ma'oli'oli)	U.S.A. (HI)
E	L	R1	<i>Schiedea verticillata</i>	Caryophyllaceae	None	U.S.A. (HI)
T	M	R6	<i>Sclerocactus</i> (= <i>Echinocactus</i> , = <i>Pediocactus</i> ) <i>brevispinus</i> (= <i>glaucus</i> ).	Cactaceae	Pariette cactus	U.S.A. (UT)
T	L	R1	<i>Senecio layneae</i>	Asteraceae	Layne's butterweed	U.S.A. (CA)
E	L	R1	<i>Sibara filifolia</i>	Brassicaceae	Santa Cruz Island rockcross	U.S.A. (CA)

TABLE 2.—FORMER CANDIDATE AND FORMER PROPOSED ANIMALS AND PLANTS—Continued

Status		Lead Region	Scientific name	Family	Common name	Historic range			
Code	Expl.								
E	.....	L	.....	R1	..	<i>Sicyos alba</i> .....	Cucurbitaceae .....	'Anunu .....	U.S.A. (HI)
E	.....	L	.....	R2	..	<i>Spiranthes delitescens</i> .....	Orchidaceae .....	Canelo Hills ladies'-tresses .....	U.S.A. (AZ)
