Williams Natural Gas Company and Missouri Gas Energy, a Division of Southern Union Company; Data Request and Notice of Staff Technical Conference

September 17, 1997.

On August 1, 1997, Williams Natural Gas Company (Williams) and Missouri Gas Energy, a Division of Southern Union Company (MGE) filed a request for a declaratory order requesting that the Commission resolve certain issues concerning the operation of the right of first refusal (ROFR) mechanism on William's system. A number of parties have filed interventions and protests or comments on the filing. Some of those filing comments and the Commission staff are not clear about some aspects of the request for a declaratory order. In order to clarify these issues, Williams and MGE are required to respond to the following questions by October 3, 1997. A technical conference to discuss these issues will be held on October 21, 1997.

1. For each example posited in the August 1, 1997 Declaratory Order request, Williams and MGE must provide a complete description of the expiring contract and the bids received on the capacity, including, the capacity for each component of TSS service under the expiring contract, whether the bids submitted are for TSS service, the capacities of each TSS component contained in each bid for the expiring capacity, the duration of the bids, and the rate bid and maximum rate for each component.

2. Parts A and C of the August 1, 1997 Declaratory Order request appear to pose the same question, and Williams and MGE must explain any intended difference in the questions posed.

3. Williams and MGE must explain how the examples in their request for a Declaratory Order differ from the issue addressed by the Commission in William's restructuring proceeding, Williams Natural Gas Company, 66 FERC ¶ 61,315, at 61,946 (1994).

The response to these questions should be filed in accordance with the provisions of the Commission's Rules of Practice and Procedure, in particular, 18 CFR 385.2001 and 385.2010 (Rules 2001 and 2010), which require that documents be filed with the Secretary of the Commission and served on all parties in the docket.

The conference to address these issues will be held on October 21, 1997,

beginning at 10 a.m., in a room to be designated at the offices of the Federal Energy Regulatory Commission, 888 First Street, N.E., Washington, DC 20426.

All interested persons are invited to attend.

Lois D. Cashell,
Secretary.
