

plan. Substantive comments regarding recovery plan implementation may not necessarily result in changes to the recovery plan, but will be forwarded to appropriate Federal or other entities so that they can take these comments into account during the course of implementing recovery actions. Individualized responses to comments will not be provided.

The subspecies being considered in this recovery plan is the Hawaiian hoary bat, *Lasiusurus cinereus semotus*. It is known from the islands of Hawaii, Maui, Oahu Kauai, and Molokai. Population numbers are not known, but Hawaiian hoary bats are observed regularly only on Hawaii, Kauai, and Maui, and the bat is apparently restricted in distribution on the latter two islands. There is a general lack of historic and current data on this subspecies, and its present status is not well understood. Habitat requirements for the Hawaiian hoary bat are not well known. Bats are most often observed foraging in open areas, near the edges of native forests, or over open water. Hawaiian hoary bats roost solitarily in trees. Habitat requirements may vary seasonally, but this is not clear. Threats to this subspecies include habitat destruction (elimination of roosting sites), and possibly direct and indirect effects of predation, pesticides, introduced insects, and disease.

The objective of the actions proposed by this recovery plan is to delist the Hawaiian hoary bat. Interim goals include determining the abundance, distribution, and habitat needs of this subspecies. Interim criteria for downlisting the Hawaiian hoary bat to threatened status are also identified.

Delisting and downlisting decisions cannot be made without a basic understanding of the Hawaiian hoary bat's distribution, abundance, and habitat needs. Research addressing these questions must be undertaken prior to consideration of delisting or downlisting.

Downlisting Objectives

A widespread population of Hawaiian hoary bats must be naturally reproducing and stable or increasing in size on the island of Hawaii for a minimum of 5 consecutive years before downlisting is considered.

Delisting Objectives

Hawaiian hoary bat populations on Hawaii, Kauai, and Maui must be well-distributed, naturally reproducing, and stable or increasing in size for at least 5 consecutive years before delisting is considered.

Public Comments Solicited

The Service solicits written comments on the recovery plan described. All comments received by the date specified above will be considered prior to approval of this plan.

Authority

The authority for this action is section 4(f) of the Endangered Species Act, 16 U.S.C. 1533(f).

Dated: September 15, 1997.

Thomas J. Dwyer,

Acting Regional Director, U.S. Fish and Wildlife Service, Region 1.

Closure of Public Lands

AGENCY: Bureau of Land Management.

ACTION: Closure of public lands, roads and trails in Fremont County, CO.

SUMMARY: Notice is hereby given that effective October 1, 1997 that certain public lands, including all existing roads and trails, east of Badger Creek in Fremont County are closed to all types of motor vehicle (including but not limited to 4x4, ATVs, and motorcycles) travel. The purpose of this closure is to prevent further disturbance to soils and vegetation in and near the riparian area, reduce sedimentation into Badger Creek, and stop the expansion of user-created trails in the area. This closure is made under the authority of 43 CFR 8364.1. The public lands affected by this emergency closure are specifically identified as follows: Fremont County, Colorado.

New Mexico Principal Meridian

T. 49 N., R. 10 E.,

Sec. 22 east of Badger Creek

Sec. 23 N $\frac{1}{2}$

Sec. 24 N $\frac{1}{2}$ west of BLM Road 5980

Sec. 13 S $\frac{1}{2}$ west of BLM Road 5980

Sec. 14 SE $\frac{1}{4}$ (locally known as Bloody Gulch and/or Rattlesnake Canyon).

DATES: Effective October 1, 1997 and will remain in effect unless revised, revoked or amended.

ADDRESSES: Bureau of Land Management, Canon City District Office, 3170 East Main Street, Canon City, Colorado 81212; Telephone (719) 269-8500.

FOR FURTHER INFORMATION CONTACT: Levi Deike, Area Manager, Royal Gorge Resource Area at the above address and

phone number or John Nahomenuk, Outdoor Recreation Planner, Arkansas Headwaters Recreation Area, P.O. Box 126, Salida, CO 81201; (719) 539-7289.

SUPPLEMENTARY INFORMATION: This closure does not apply to emergency, law enforcement, and federal or other government vehicles while being used for official or emergency purposes, or to any vehicle whose use is expressly authorized or otherwise officially approved by BLM. Violation of this order is punishable by fine and/or imprisonment as defined in 18 USC 3571. A copy of this **Federal Register** Notice and map showing the closure area is posted in the Canon City District Office and in public places in the affected area.

Stuart L. Freer,

Associate District Manager.

Wild Horse and Burro Advisory Board; Re-opening of Public Call for Nominations

AGENCY: Bureau of Land Management, Interior.

ACTION: Re-opening of Public Call for Nominations for the Wild Horse and Burro Advisory Board.

SUMMARY: This notice is published in accordance with Section 9(a)(2) of the Federal Advisory Committee Act (5 U.S.C. App.). Notice is hereby given that the public call for nominations for membership on the Wild Horse and Burro Advisory Board is being re-opened for a 30-day period to ensure that all interested parties have had an adequate opportunity to submit nominations for board membership.

Any individual or organization may nominate one or more persons to serve on the Wild Horse and Burro Advisory Board. Individuals may also nominate themselves for Board membership. Nominations that have already been made do not have to be resubmitted. All nomination letters should include the name, address, profession, relevant biographic data, and reference sources for each nominee, and should be sent to the address below.

Nominations may be made for the following categories of interest:
Wild horse and burro advocacy group
Wild horse and burro research
(especially genetics and population biology)
