

**DATES:** Written comments should be submitted on or before October 27, 1997. If you anticipate that you will be submitting comments, but find it difficult to do so within the period of time allowed by this notice, you should advise the contact listed below as soon as possible.

**ADDRESSES:** Direct all comments to Judy Boley, Federal Communications Commission, Room 234, 1919 M St., N.W., Washington, DC 20554 or via internet to jboley@fcc.gov.

**FOR FURTHER INFORMATION CONTACT:** For additional information or copies of the information collection(s) contact Judy Boley at 202-418-0214 or via internet at jboley@fcc.gov.

**SUPPLEMENTARY INFORMATION:**

*OMB Approval Number:* 3060-0625.

*Title:* Section 24.237, Amendment of the Commission's Rules to Establish New Personal Communications Services (Interference Protection).

*Type of Review:* Revision of a currently approved collection.

*Respondents:* Individuals or households; business or other for-profit; not-for-profit institutions; and state, local or tribal government.

*Number of Respondents:* 100.

*Estimated Time Per Response:* 2 hours.

*Cost to Respondents:* N/A.

*Total Annual Burden:* 200 hours.

*Needs and Uses:* Section 24.237 requires that the results of the coordination process between incumbent microwave users and PCS licensees be reported to the Commission only if the parties fail to agree.

Additionally, the Commission requires that each broadband PCS licensee perform an engineering analysis to assure that the proposed facilities will not cause interference to existing OFS stations within the specified coordination distance of a magnitude greater than a specified criteria, unless there is prior agreement with the affected OFS licensee. This collection is being revised because the requirement in Section 24.204 was eliminated and removed from the Commission's rules.

*OMB Approval Number:* 3060-0727.

*Title:* Section 73.213, Grandfathered Short-Spaced FM Stations.

*Type of Review:* Revision of a currently approved collection.

*Respondents:* Business or other for-profit.

*Number of Respondents:* 15.

*Estimated Time Per Response:* 5 hours per showing (0.5 hours consultation time/4.5 hours contracting time).

*Cost to Respondents:* \$8,493. We assume that the applicant would use a

consulting engineer (\$125/hour) to complete the interference showing. We estimate that copying of the application would be approximately \$0.10/page and that each application would have an average of 25 pages. We also estimate that the postage for the mailing of an application would be \$1.24/application.

*Total Annual Burden:* 200 hours.

*Needs and Uses:* On 8/4/97, the Commission adopted a Report and Order in MM Docket No. 96-120. The Commission adopted two of the proposals as set forth in the NPRM. The third proposal was adopted as proposed but a disclosure requirement was added that requires that a copy of any application for co-channel or first-adjacent channel stations proposing predicted interference caused in any area where interference is not currently predicted to be caused must be served upon the licensee(s) of the affected short-spaced station(s). These modified procedures will allow grandfathered stations greater flexibility in making transmitter site changes and other facility modifications. The data are used by Commission staff to determine if the public interest will be served and that existing levels of interference will not be increased to other licensed stations. Providing copies of application(s) to affected licensee(s) will enable potentially affected parties to examine the proposals and provide them an opportunity to file informal objections against such applications.

Federal Communications Commission.
