SUPPLEMENTARY INFORMATION: This workshop is one of a series of interactions with the Agreement States, licensees, and the public to gather suggestions and ideas to ensure the success in developing a Regulatory Guide on "Demonstrating Compliance With the Radiological Criteria for License Termination." The workshop will begin with a brief introduction on some of the more important questions that were considered in developing the Regulatory Guide working paper on "License Termination under Restricted Conditions." After the introduction, the Working Paper will be reviewed section-by-section. Attendees will be asked for questions and comments on each section. The NRC will ask questions on

the approach that it has developed. Written comments that have been received from the public will be discussed.

Participants at the two regional locations will be able to ask questions and provide comments through a moderator both during the periods that the workshop is available through video-conferencing and through audio connection.

There is no visitor parking at Region II in the Atlanta Federal Center (AFC) building. There are several hourly parking lots located near the AFC (behind the AFC tower and on the corner of Forsyth Street and Martin Luther King, Jr. Drive). The AFC is located near the Five Point Station on the MARTA train line. There are two locations for visitor parking at Region III. A visitor parking lot is located on the north end of the building (between the office building and Warrenton Road), and a parking garage is located on the west side of the building (visitors can park on the street level or upper level). Seating for the public at each location will be on a first-come, first-served basis.

A transcript of this workshop will be available for inspection, and copying for a fee at the NRC Public Document Room, 2120 L Street, NW., Lower Level, Washington, DC 20555, on or about October 31, 1997.
