[Project No. 2680-039]

Consumers Energy Company; Notice of Availability of Draft Environmental Assessment

September 26, 1997.

A draft environmental assessment (DEA) is available for public review. The DEA was prepared for a plan to construct angler access facilities at what is known as the Port Sheldon site. The plan was required by ordering paragraph (C) of the Order Approving Settlement Agreement Regarding Fishery Issues, issued by the Commission on January 23, 1996. The Port Sheldon site is located adjacent to Lake Michigan and Pigeon Lake, near the Town of West Olive, Michigan.

The DEA finds that the licensee's plan is not a major federal action significantly affecting the quality of the human environment. The DEA was written by staff in the Office of Hydropower Licensing, Federal Energy Regulatory Commission. Copies of the DEA can be viewed at the Commission's Reference and Information Center, Room 2A, 888 First Street, NE., Washington, DC 20426. Copies can also be obtained by contacting the project manager listed below.

Please submit any comments within 40 days from the date of this notice. Any comments, conclusions, or recommendations that draw upon studies, reports, or other working papers of substance should be supported by appropriate documentation.

Comments should be addressed to: Ms. Lois D. Cashell, Secretary, Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426. Please include the project number (2680-039) on any comments filed. For further information, you may contact the project manager, Patti Pakkala, at (202) 219-0025.

Lois D. Cashell,
Secretary.

- i. *FERC Contact:* James Hunter, (202) 219-2839.
- j. *Comment Date:* November 5, 1997.
- k. *Description of Project:* The proposed Riverton Water Supply System (RWSS) would consist of a river intake and pump station on the South Fork of the American River near Riverton and a 30-inch-diameter, 2000-foot-long, buried pipeline extending from the pump station to an existing undamaged portion of the El Dorado canal.

Pacific Gas and Electric Company (PG&E) proposes to construct and operate the RWSS project in order to restore water delivery to the El Dorado Irrigation District (EID). Severe flood damage to the El Dorado Project in late 1996 and early 1997 interrupted that delivery. The proposed facilities would discharge about 40 cubic feet per second of water into the canal, from which water would be delivered to EID as it had been before the flood damage. PG&E's proposal includes a contingency plan to install a temporary intake and above-ground pipeline to provide an emergency water supply, if necessitated by drought conditions prior to completion of the permanent facilities.

1. This notice also consists of the following standard paragraphs: B, C1, and D2.

B. Comments, Protests, or Motions to Intervene—Anyone may submit comments, a protest, or a motion to intervene in accordance with the requirements of Rules of Practice and Procedure, 18 CFR 385.210, .211, .214. In determining the appropriate action to take, the Commission will consider all protests or other comments filed, but only those who file a motion to intervene in accordance with the Commission's Rules may become a party to the proceeding. Any comments, protests, or motions to intervene must be received on or before the specified

comment date for the particular application.

C1. Filing and Service of Responsive Documents—Any filings must bear in all capital letters the title "COMMENTS" "RECOMMENDATIONS FOR TERMS AND CONDITIONS", "PROTESTS", OR "MOTION TO INTERVENE", as applicable, and the Project Number of the particular application to which the filing refers. Any of the above-named documents must be filed by providing the original and the number of copies provided by the Commission's regulations to: The Secretary, Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426. A copy of any motion to intervene must also be served upon each representative of the Applicant specified in the particular application.

D2. Agency Comments—Federal, state, and local agencies are invited to file comments on the described application. A copy of the application may be obtained by agencies directly from the Applicant. If an agency does no file comments within the time specified for filing comments, it will be presumed to have no comments. One copy of an agency's comments must also be sent to the Applicant's representatives.

Lois D. Cashell,
Secretary.
