

and identification of factors which may be important in disease prevention.

**Frequency of response:** 5.36 (annual number of responses/annual number of respondents) **Affected public:**

Individuals or households. **Types of Respondents:** Individuals recruited for CHS and their selected proxies and physicians. The annual reporting burden is as follows: **Estimated Number of Respondents:** 5,790; **Estimated Number of Responses per respondent:** 5.4; and **Estimated Total Annual Burden Hours Requested:** 8,098. There are no costs for respondents. Estimated annualized cost for information collection for information collection for a 13-year period is \$6,820 thousand per year. This is based on CHS Field, Center and Reading Centers costs in thousands per year. Personnel, \$3,627; Equipment, \$47; Subcontracts, \$257; Other, \$1,437; Overhead, \$1,452. The annualized cost of monitoring the project by the NHLBI is \$207 thousand.

**REQUEST FOR COMMENTS:** Written comments and/or suggestions from the public and affected agencies are invited on one or more of the following points: (1) Whether the proposed collection of information will have practical utility; (2) The accuracy of the agency's estimate of burden of the proposed collection of information, including the validity of the methodology and assumptions used; (3) Ways to enhance the quality, utility, and clarity of the information to be collected; and (4) Ways to minimize the burden of collection of information on those who are to respond, including the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

**FOR FURTHER INFORMATION:** To request more information on the proposed project or to obtain a copy of data collection plans and instruments, contact Dr. Robin Boineau, Epidemiology and Biometry Program, Division of Clinical Applications, NHLBI, NIH, II Rockledge Centre, 6701 Rockledge Drive, MSC #7934, Βετησδά, ΜΔ, 20892-7934, ορ ψαλλ νον-τολλ φρες νθμβερ (301) 435-0707, ορ Ε-μαιλ νοθρ ρεφθεστ, ινψλθδινγ νοθρ αδδρεσσ το≤ βοινεαθ@νιη.γοω.

**COMMENTS DUE DATE:** Comments regarding this information collection are best assured of having their full effect if received within 60-days of the date of this publication.

Dated: October 1, 1997.

##### Proposed Data Collection: Public Comment; Leukemia and Other Cancers Among Chernobyl Clean-up Workers in Lithuania

**SUMMARY:** In compliance with the requirement of Section 3506 (c) (2) (A) of the Paperwork Reduction Act of 1995 for opportunity for public comment on proposed data collection projects, the National Institutes of Health (NIH), National Cancer Institute (NCI) will publish periodic summaries of proposed projects to be submitted to the Office of Management and Budget (OMB) for review and approval.

**PROPOSED COLLECTION:** *Title:* Leukemia and Other Cancers Among Chernobyl Clean-up Workers in Lithuania. *Type of Information Collection Request:* renewal. *Need and Use of Information Collections:* A cohort study will be conducted to investigate the risk of radiation-induced leukemia and other cancers, and of occupationally related cancers, among 7,000 workers from Lithuania who were sent to Chernobyl to clean-up after the accident there in 1986. The workers will be asked to respond to a mail questionnaire or an interview that collects information about specific duties performed during the Chernobyl clean-up, occupational exposures, other cancer risk factors, and incident cancers. The information will be combined with similar information from Estonia and Latvia and used by the National Cancer Institute to determine site-specific risk estimates for cancer based on various exposure patterns.

*Frequency of Response:* One time; *Affected Public:* Individuals or households; *Type of Respondents:* Chernobyl Workers. The annual reporting burden is as follows: **Estimated Number of Respondents:** 7,000; **Estimated Number of Responses per Respondent:** 1; **Average Burden Hours per Response:** 0.5; and **Estimated Total Annual Burden Hours Requested:** 3,500. There are no Capital Costs to report. There are no Operating or Maintenance Costs to report.

**REQUEST FOR COMMENTS:** Written comments and/or suggestions from the

public and affected agencies are invited on one or more of the following points: (a) whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology.

#### FOR FURTHER INFORMATION CONTACT:

To request more information on the proposed project or to obtain a copy of the plans and instruments, contact Gilbert W. BeeBe, Ph.D., National Cancer Institute, EPN 400, 6130 Executive Boulevard, Rockville, MD 20892-7364, or call the non-toll-free number (301) 496-5067.

**COMMENTS DUE DATE:** Comments regarding this information collection are best assured of having their full effect if received on or before December 8, 1997.

Dated: September 30, 1997.

**Nancie L. Bliss,**

OMB Project Clearance Liaison.

#### Government-Owned Inventions; Availability for Licensing

**AGENCY:** National Institutes of Health, Public Health Service, DHHS.

**ACTION:** Notice.

**SUMMARY:** The National Institutes of Health is seeking licensees for the further development, evaluation, and commercialization of novel progesterone antagonists and pharmaceutical compositions thereof. The invention claimed in U.S. Patent Application 60/016,628 entitled "21-Substituted Progesterone Derivatives As New Antiprogestational Agents" (HK Kim, RP Blye, PN Rao, JW Cessac, and CK Acosta), filed May 1, 1996, and a related case filed April 30, 1997, are available for either exclusive or non-exclusive licensing (in accordance with 35 U.S.C. 207 and 37 CFR Part 404).

**ADDRESSES:** Licensing proposals and questions about this opportunity should be addressed to Ms. Carol Lavrich,
