

will be distributed and made available to the public on 10 October 1997. Comments on the FEIS must be received by the close of business 10 November 1997. On or after that date a Record of Decision will be issued regarding the Proposed Action

Those who did not receive the Draft Environmental Impact Statement (DEIS) should request that document as well.

The FEIS and DEIS are also available for inspection at the following additional locations: Bureau of Land Management, Nevada State Office, 850 Harvard Way, Reno, Nevada; Humboldt County Library, Winnemucca, Nevada; Pershing County Library, Lovelock, Nevada; Lander County Library, Battle Mountain, Nevada; and the University of Nevada Library in Reno, Nevada.

Ken Loda, Project NEPA Coordinator at the above Winnemucca Field Office address, by telephone at (702) 623-1500, or by email at kloda@nv.blm.gov.

SUPPLEMENTARY INFORMATION: The FEIS was prepared in abbreviated form, and with the DEIS (issued on 20 June 1997) they represent the complete Environmental Impact Statement. The FEIS responds to comments received on the DEIS. Together the documents analyze the potential direct, indirect and cumulative environmental impacts that could result from the expansion of the open pit and north and south waste rock storage areas; development of the new south heap leach pad; haul road; solution ponds; solution corridor/road; plant; monitoring wells/road; crusher site; diversion channels and sediment ponds; growth media stockpiles; exploration roads and drill sites; waste supply pipelines; realignment of the Johnson Canyon access road; and a revised comprehensive reclamation plan for the mine. Approximately 860 acres would be disturbed by the proposed mine expansion, of which 447 are public and 413 private. Approval of the proposed project would extend the life of the mine five years. Alternatives analyzed are the north extension of the heap leach pad alternative and the no action alternative.
