ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 52

[MO 027-1027; FRL-5891-2]

Approval and Promulgation of Implementation Plans; State of Missouri

AGENCY: Environmental Protection Agency (EPA).

ACTION: Final conditional rule.

SUMMARY: The EPA is taking final action to conditionally approve the State Implementation Plan (SIP) revision concerning Missouri Rule 10 CSR 10-2.330, Control of Gasoline Reid Vapor Pressure, submitted by the Missouri Department of Natural Resources (MDNR). This revision sets a summertime gasoline Reid vapor pressure (RVP) limit of 7.2 pounds per square inch (psi), and 8.2 psi for gasoline containing at least 9.0 percent by volume but not more than 10.0 percent by volume ethanol, for gasoline distributed in Clay, Platte, and Jackson Counties in Missouri. This revision is necessary to ensure that the area continues to maintain the National Ambient Air Quality Standard (NAAQS) for ozone.

DATES: This rule is effective on November 10, 1997.

ADDRESSES: Copies of the documents relevant to this action are available for public inspection during normal business hours at the: Environmental Protection Agency, Air Planning and Development Branch, 726 Minnesota Avenue, Kansas City, Kansas 66101.

FOR FURTHER INFORMATION CONTACT: Stan Walker at (913) 551-7494.

SUPPLEMENTARY INFORMATION: On March 24, 1997 (62 FR 13846) the EPA proposed approval of the SIP revision concerning Missouri Rule 10 CSR 10-2.330, Control of Gasoline Reid Vapor Pressure, submitted by MDNR. This revision, which limits the RVP of gasoline sold in the Missouri portion of the Kansas City metropolitan area, is necessary to help the Kansas City area maintain the NAAQS for ozone. In accord with section 211(c)(4)(C), the EPA is able to approve this fuel control measure because the state of Missouri demonstrated that the measure is necessary to achieve the national primary and secondary ambient air quality standard. The EPA also approves the state fuel requirement as necessary because no other measures would bring about timely attainment, or if other measures exist, they are unreasonable or impracticable.
