Approval and Promulgation of Air Quality Implementation Plans; Maryland; Control of Volatile Organic Compound Emissions From Yeast Manufacturing, Screen Printing, Expandable Polystyrene Operations and Bakeries

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: EPA is proposing to approve the State Implementation Plan (SIP) revisions submitted by the State of Maryland for the purpose of establishing reasonably available control technology (RACT) volatile organic compound (VOC) emission control requirements for yeast manufacturing, screen printing, expandable polystyrene operations (EPO), and bakeries. In the Final Rules section of this **Federal Register**, EPA is approving the State's SIP revisions as a direct final rule without prior proposal because the Agency views them as noncontroversial SIP revisions and anticipates no adverse comments. A detailed rationale for the approval is set forth in the direct final rule. If no adverse comments are received in response to this proposed rule, no further activity is contemplated in relation to this rule. If EPA receives adverse comments, the direct final rule will be withdrawn and all public comments received will be addressed in a subsequent final rule based on this proposed rule. EPA will not institute a second comment period on this action. Any parties interested in commenting on this action should do so at this time.

DATES: Comments must be received in writing by November 14, 1997.

AGENCY: Federal Emergency Management Agency (FEMA).

ACTION: Correction to proposed rule.

SUMMARY: This document contains corrections to the proposed rule that was published Tuesday, October 7, 1997, (62 FR 52304). The proposed rule related to the increase of the deductible under the Standards Flood Insurance Policy from \$750 to \$1,000 for structures eligible for subsidized coverage.

Need for Correction

As published, the proposed rule contains errors with respect to the statutory date and is in need of correction.

Accordingly, the publication of proposed rule on October 7, 1997, which is the subject of FR Doc. 97-26527, is corrected as follows:
