

future years, including the progress made toward meeting those commitments. The Office of Management and Budget approved these forms on May 26, 1995 (OMB No. 1905-0194).

You may wish to participate in the program to: (1) Establish a public record of your emissions and reductions for any years from 1987 onwards; (2) demonstrate progress toward meeting commitments made under voluntary programs to reduce emissions of greenhouse gases; (3) inform the public about greenhouse gas emissions and reduction strategies; and (4) contribute to educational exchanges on the most effective ways to reduce emissions of greenhouse gases. The EIA publishes an annual report/review of the 1605(b) voluntary reporting of greenhouse gases program. In addition, EIA has established a publicly available database of the information reported each year, which serves as a clearinghouse of information and case studies.

II. Current Actions

This action represents a request for the extension of the expiration date with no other changes, of existing collections (Form EIA-1605 and Form EIA-1605EZ). The request will include an extension from the currently approved OMB expiration dates (May 31, 1998) to May 31, 2001, i.e., 3-year extension of the Forms EIA-1605 and EIA-1605EZ.

III. Request for Comments

Prospective respondents and other interested parties should comment on the actions discussed in item II. The following guidelines are provided to assist in the preparation of responses. Please indicate to which form(s) your comments apply.

General Issues

A. Is the proposed collection of information necessary for the proper performance of the functions of the agency and does the information have practical utility? Practical utility is defined as the actual usefulness of information to or for an agency, taking into account its accuracy, adequacy, reliability, timeliness, and the agency's ability to process the information it collects.

B. What enhancements can EIA make to the quality, utility, and clarity of the information to be collected?

As a Potential Respondent

A. Are the instructions and definitions clear and sufficient? If not, which instructions require clarification?

B. Can data be submitted by the due date?

C. Public reporting burden for this collection is estimated to average: Form EIA-1605: 40 hours per response Form EIA-1605EZ: 4 hours per response Burden includes the total time, effort, or financial resources expended to generate, maintain, retain, or disclose or provide the information.

Please comment on (1) the accuracy of our estimate and (2) how the agency could minimize the burden of the collection of information, including the use of information technology.

D. EIA estimates that respondents will incur no additional costs for reporting other than the hours required to complete the collection. What is the estimated: (1) Total dollar amount annualized for capital and start-up costs, and (2) recurring annual costs of operation and maintenance, and purchase of services associated with this data collection?

E. Do you know of any other Federal, State, or local agency that collects similar data? If you do, specify the agency, the data element(s), and the methods of collection.

As a Potential User

A. Can you use data at the levels of detail indicated on the form?

B. For what purpose would you use the data? Be specific.

C. Are there alternate sources of data and do you use them? If so, what are their deficiencies and/or strengths?

D. For the most part, information is published by EIA in U.S. customary units, e.g., cubic feet of natural gas, short tons of coal, and barrels of oil. Would you prefer to see EIA publish more information in metric units, e.g., cubic meters, metric tons, and kilograms? If yes, please specify what information (e.g., coal production, natural gas consumption, and crude oil imports), the metric unit(s) of measurement preferred, and in which EIA publication(s) you would like to see such information.

Comments submitted in response to this notice will be summarized and/or included in the request for OMB approval of the request for a 3-year extension of the forms. They also will become a matter of public record.

Statutory Authority: Section 3506 (c)(2)(A) of the Paperwork Reduction Act of 1995 (Pub. L. 104-13).

Issued in Washington, DC, October 17, 1997.

Jay H. Casselberry,

Agency Clearance Officer, Statistics and Methods Group, Energy Information Administration.

Federal Energy Regulatory Commission

[Docket No. RP97-521-001]

Garden Banks Gas Pipeline, LLC; Notice of Proposed Changes in FERC Gas Tariff

October 14, 1997.

Take notice that on October 9, 1997, Garden Banks Gas Pipeline, LLC (GBBP) tendered for filing as part of its FERC Gas Tariff, Original Volume No. 1, Substitute Second Revised Sheet No. 106, to become effective October 11, 1997.

GBBP states that the purpose of this filing is to comply with the letter order issued September 29, 1997 in Docket No. RP97-521-000, whereby GBGP was directed to refile tariff sheet No. 106 within 15 days of the date of the letter order.

Any person desiring to protest this filing should file a protest with the Federal Energy Regulatory Commission, 888 First Street, N.E., Washington, D.C. 20426, in accordance with § 385.211 of the Commission's Rules and Regulations. All such protests must be filed in accordance with § 154.210 of the Commission's Regulations. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Copies of this filing are on file with the Commission and are available for public inspection in the Public Reference Room.

Lois D. Cashell,

Secretary.
