DEPARTMENT OF DEFENSE**Office of the Secretary****Proposed Collection; Comment
Request**

AGENCY: Defense Advanced Research
Projects Agency.

ACTION: Notice.

In compliance with Section 3506(c)(2)(A) of the Paperwork Reduction Act of 1995, the Defense Advanced Research Projects Agency (DARPA) announces the proposed review of the Technology Reinvestment Project (TRP) and seeks public comment on the information collection and provisions thereof. Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden of the proposed information collection; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the information collection on respondents, including through the use of automated collection techniques or other forms of information technology. **DATES:** Consideration will be given to all comments received by December 19, 1997.

ADDRESSES: Written comment and recommendations on the proposed information collection should be sent to: Mr. John D. Jennings, DARPA/JDUPO, 3803 N. Fairfax Dr., Arlington, VA 22203.

FOR FURTHER INFORMATION CONTACT: To request more information on this proposed information collection or to obtain a copy of the proposal and associated collection instruments, please write to the above address or call Mr. John D. Jennings (DARPA/JDUPO) at 703-526-1930.

Title; Associated Forms; and OMB Number: TRP Review Project, No form number.

Needs and Uses: The TRP is no longer receiving Federal funding, but new initiatives have begun to broaden and normalize the application of dual-use technologies and products. As part of its support of these initiatives, DARPA is sponsoring this review project to quantitatively express the status and performance of the TRP projects and to document lessons learned. This review will also provide an opportunity to present TRP products and technologies to the Services for adoption. The information collected will be used by DARPA's Joint Dual Use Program Office (JDUPO) and the Office of the Secretary of Defense (OSD) to define and document the status of each TRP project and to derive performance metrics suitable for the Government Performance Results Act (GPRA).

TRP project successes and failures and lessons learned from the TRP will be compiled from the information gathered as well as materials for education and training. Because the TRP projects are nearing completion, this data must be collected now or it will become nearly impossible to track down. If that happens, the opportunity will be lost to assess the benefits of the TRP and to learn lessons that will help to expand dual-use and embed it into the Military Services. It is also a last chance to develop quantitative assessment data for GPRA.

Affected Public: Business or other for profit; not-for-profit.

Annual Burden Hours: 280.

Number of Respondents: 140.

Responses per Respondent: 1.

Average Burden per Response: 2 hours.

Frequency: On occasion, generally only one time.

SUPPLEMENTARY INFORMATION: Several steps are being taken to minimize the burden of this data collection on participating businesses. Duplication will be avoided by carefully formulating the questions which must be asked, and by designating a Review Team which will conduct the review consistently, while sharing resulting insights as they emerge. In addition, whenever possible, data collection will be combined with regularly scheduled project review
