SUMMARY: The Federal Communications Commission, as part of its continuing effort to reduce paperwork burden, invites the general public and other Federal agencies to take this opportunity to comment on the following information collection, as required by the Paperwork Reduction Act of 1995, Pub. L. 104-13. An agency may not conduct or sponsor a collection of information unless it displays a currently valid control number. No person shall be subject to any penalty for failing to comply with a collection of information subject to the Paperwork Reduction Act (PRA) that does not display a valid control number. Comments should address: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; (b) the accuracy of the Commission's burden estimates; (c) ways to enhance the quality, utility, and clarity of the information collected; and (d) ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology.

DATES: Persons wishing to comment on this information collection should submit comments December 22, 1997.

ADDRESSES: Direct all comments to Jerry Cowden, Federal Communications Commission, Room 240-B, 2000 M St., N.W., Washington, DC 20554 or via internet to jcowden@fcc.gov.

FOR FURTHER INFORMATION CONTACT: For additional information or copies of the information collection contact Jerry Cowden at 202-418-0447 or via internet at jcowden@fcc.gov.

SUPPLEMENTARY INFORMATION:

OMB Approval Number: 3060-0346.
Title: 47 CFR 78.27 License Conditions.

Type of Review: Extension of a currently approved collection.

Respondents: Businesses or other for-profit entities.

Number of Respondents: 340.

Estimated Time Per Response: 0.167 hours (10 minutes).

Total Annual Burden to Respondents: We estimate that Cable Television Relay Service (CARS) licensees will, on an annual basis, file approximately 285 notifications and 55 requests for additional time to construct. The average burden for each filing is estimated to be 10 minutes (0.167). 340 filings \times 0.167 hours = 57 hours.

Total Annual Cost to Respondents: There are no capital or start-up costs. Total operation and maintenance costs: the cost associated with postage and stationery for complying with the filing requirements is estimated to be \$1 per response. $340 \times \$1 = \340 .

Needs and Uses: 47 CFR 78.27 requires licensees of CARS stations to notify the Commission in writing when the station commences operation. It also requires a CARS licensee needing additional time to complete construction of the station to request an extension of time 30 days before the expiration of the one-year construction period. The information is filed with Commission staff as a means to provide accurate records of actual CARS channel usage for frequency coordination purposes.
