

comment on whether small entities will have additional burdens imposed as a result of these proposed requirements. We believe that monitoring and reporting on CIC usage will significantly aid the industry's and this Commission's joint effort to conserve CICs.

Steps Taken to Minimize Economic Impact on Small Entities and Significant Alternatives Considered

To gather relevant information from all interested parties, including small business entities, about allocation of this scarce numbering resource, we seek comment on a wide array of issues and ask that commenters suggest alternatives to our proposals. The IRFA tentatively concludes that our proposals in the FNPRM would impose minimum burdens on small entities. The IRFA seeks comment on these proposals and the impact they may have on small entities.

Federal Rules That May Duplicate, Overlap, or Conflict With the Proposed Rules

None.

Analysis of Proceeding

The FNPRM asks for comment on the use and application of Feature Group D CICs, the CICs that are used to provide equal access. The FNPRM also seeks comment on the definition of "entity" used to determine who may receive a CIC and on CIC conservation issues, such as: (1) The limit on CIC assignments per entity; (2) the limit on assignable four-digit CICs; (3) CIC reclamation; and (4) usage reporting requirements. For some of these issues, the FNPRM proposes rules. Many of these issues are already addressed in the *CIC Assignment Guidelines*, developed by the industry for the NANP administrator. The intention of the FNPRM is not to propose modifications to the existing guidelines, but rather to propose new Commission rules to govern CIC use and assignment. The Commission's proposals are intended to ensure fair and efficient overall administration of numbering resources; to foster an integrated approach to numbering administration across NANP member countries; and to enable the Commission and regulatory bodies of other nations to ensure that domestic numbering administration is effective through reliance upon the expertise and innovative efforts of industry.
