ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 300

[FRL-65912-5]

National Oil and Hazardous Substances Contingency Plan; National Priorities List Update

AGENCY: Environmental Protection Agency.

ACTION: Notice of deletion of the LaGrand Sanitary Landfill Superfund Site from the National Priorities List (NPL).

SUMMARY: The Environmental Protection Agency (EPA) announces the deletion of the LaGrand Sanitary Landfill Superfund Site in Minnesota from the National Priorities List (NPL). The NPL is Appendix B of 40 CFR part 300 which is the National Oil and Hazardous Substances Contingency Plan (NCP), which EPA promulgated pursuant to Section 105 of the Comprehensive Environmental Response, Compensation, and Liability Act of 1980 (CERCLA), as amended. This action is being taken by EPA and the State of Minnesota, because it has been determined that all appropriate Fund-financed response actions under CERCLA have been implemented and that no further response by responsible parties is appropriate. Moreover, EPA and the State of Minnesota have determined that remedial actions

conducted at the site to date remain protective of public health, welfare, and the environment.

EFFECTIVE DATE: October 23, 1997.

FOR FURTHER INFORMATION CONTACT: Gladys Beard at (312) 886-7253 (SR-6J), Associate Remedial Project Manager, Superfund Division, U.S. EPA—Region V, 77 West Jackson Blvd., Chicago, IL 60604. Information on the site is available at the local information repository located at: The Alexandria Public Library, Seventh and Fillmore, Alexandria, MN 56308. Requests for comprehensive copies of documents should be directed formally to the Regional Docket Office. The contact for the Regional Docket Office is Jan Pfundheller (H-7J), U.S. EPA, Region V, 77 W. Jackson Blvd., Chicago, IL 60604, (312) 353-5821.

SUPPLEMENTARY INFORMATION: The site to be deleted from the NPL is: LaGrand Sanitary landfill Superfund Site located in Douglas County, Minnesota. A notice of intent to delete for this site was published September 5, 1997 (62 FR 46938). The closing date for comments on the Notice of Intent to Delete was October 4, 1997. EPA received no comments and therefore no Responsiveness Summary was prepared.

The EPA identifies sites which appear to present a significant risk to public health, welfare, or the environment and it maintains the NPL as the list of those sites. Sites on the NPL may be the subject of Hazardous Substance Response Trust Fund (Fund) financed remedial actions. Any site deleted from the NPL remains eligible for Fund-financed remedial actions in the unlikely event that conditions at the site warrant such action. Section 300.425(e)(3) of the NCP states that Fund-financed actions may be taken at sites deleted from the NPL in the unlikely event that conditions at the site warrant such action. Deletion of a site from the NPL does not affect responsible party liability or impede agency efforts to recover costs associated with response efforts.

FEDERAL COMMUNICATIONS COMMISSION

47 CFR Part 52

[CC Docket No. 92–237, CC Docket No. 95–155; FCC 97–372]

Administration of the North American Numbering Plan; Toll Free Service Access Codes

AGENCY: Federal Communications Commission.

ACTION: Final rule.

SUMMARY: On October 9, 1997, the Commission released a Third Report and Order in CC Docket No. 92–237 adopting various measures related to numbering administration for telecommunications service and to billing and collection to support numbering administration activities. The Third Report and Order is intended to ensure the impartial allocation and administration of numbering resources. The Commission also released a Third Report and Order in CC Docket No. 95–155 adopting measures related to numbering administration for toll free numbers. The Third Report and Order is intended to ensure the impartial allocation and administration of toll free numbering resources.

EFFECTIVE DATE: November 24, 1997.

FOR FURTHER INFORMATION CONTACT: Marian Gordon or Erin Duffy, Network Services Division, Common Carrier Bureau, (202) 418–2320.

SUPPLEMENTARY INFORMATION: This summarizes the Commission's Third Report and Order in CC Docket No. 92–237, In the Matter of Administration of the North American Numbering Plan, FCC 97–372, adopted October 9, 1997, and released October 9, 1997. The Commission concurrently released a Third Report and Order in CC Docket No. 95–155, In the Matter of Toll Free Service Access Codes. The file is available for inspection and copying during the weekday hours of 9 a.m. to 4:30 p.m. in the Commission's Reference Center, room 239, 1919 M St., N.W., Washington D.C., or copies may be purchased from the Commission's duplicating contractor, ITS, Inc. 2100 M St., N.W., Suite 140, Washington, D.C. 20037, phone (202) 857–3800.

Analysis of Proceeding

1. In the *Third Report and Order* in CC Docket No. 92–237, the Commission takes several actions to ensure the impartial administration and allocation of numbering resources. The Commission accepts the recommendation of the North American

Numbering Council (NANC) and selects Lockheed IMS as the North American Numbering Plan Administrator (NANPA). The Commission accepts the NANC's recommendation and selects the National Exchange Carriers Association (NECA) as the NANPA Billing and Collection Agent (B&C Agent), subject to a specific neutrality cure. The Commission accepts NANC's proposed rules for governance of the NANPA and the B&C Agent, with minor modifications. In order to provide solutions to numbering disputes when time is critical, the Commission streamlines its administrative processes of review of NANC's initial resolution of numbering disputes.

2. The Commission imposes two conditions, recommended by the NANC, that Lockheed must follow. First, Lockheed must perform the numbering administration functions currently performed by Bellcore, and the central office code administration functions currently performed by the eleven central office code administrators, at the price agreed to at the time of its selection. The new NANPA may request from the NANC, with approval by the Commission, an adjustment in this price if the actual number of central office code assignments made per year, the number of area codes requiring relief per year, or the number of area code relief meetings per area code exceeds 120% of Lockheed's stated assumptions at the time of its selection. Second, Lockheed must make available any and all intellectual property and associated hardware resulting from its activities as numbering administrator including, but not limited to, systems and the data contained therein, software, interface specifications and supporting documentation, and make such property available to whomever the NANC directs free of charge.

3. In the *Third Report and Order* in CC Docket No. 95–155, the Commission takes action to ensure the impartial administration and allocation of toll free numbering resources. The Commission concludes that toll free numbering administration, as currently structured, is inconsistent with section 251(e) of the Communications Act. The Commission directs the NANC to examine the issue of toll free numbering administration and make a recommendation to the Commission regarding what entity would be an appropriate administrator for the toll free database within 120 days of the effective date of the NANP Order.

4. It is ordered, pursuant to Sections 1, 4(i), 201–205, 218, and 251 of the Communications Act of 1934, as amended, 47 U.S.C. Sections 151, 154(i),
