**Notice of Antidumping Duty Order in
the Antidumping Investigation of
Vector Supercomputers From Japan**

AGENCY: Import Administration, International Trade Administration, Department of Commerce

EFFECTIVE DATE: October 24, 1997.

FOR FURTHER INFORMATION CONTACT: Edward Easton at (202) 482-1777 or Sunkyu Kim at (202) 482-2613, Office of Antidumping/Countervailing Duty Enforcement, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, N.W., Washington, D.C. 20230.

Applicable Statute and Regulations

Unless otherwise indicated, all citations to the statute are references to the provisions effective January 1, 1995, the effective date of the amendments made to the Tariff Act of 1930 by the Uruguay Round Agreements Act (URAA).

Scope of Order

The scope of this order consists of all vector supercomputers, whether new or used, and whether in assembled or unassembled form, as well as vector supercomputer spare parts, repair parts, upgrades, and system software, shipped

to fulfill the requirements of a contract entered into on or after October 16, 1997, for the sale and, if included, maintenance of a vector supercomputer. A vector supercomputer is any computer with a vector hardware unit as an integral part of its central processing unit boards.

In general, the vector supercomputers imported from Japan, whether assembled or unassembled, covered by this order are classifiable under heading 8471 of the Harmonized Tariff Schedules of the United States ("HTS"). Merchandise properly classified under HTS numbers 8471.10 and 8471.30, however, is excluded from the scope of this order. Although, these references to the HTS are provided for convenience and customs purposes, our written description of the scope of this order is dispositive.

On October 15, 1997, Fujitsu Limited and Fujitsu America, Inc., respondents in the antidumping proceeding, requested that the Department adjust the scope of this order to provide that it applied to entries pursuant to a contract entered into on or after the publication of the final affirmative determination of the U.S. International Trade Commission in the **Federal Register**. On October 16, 1997, Cray Research, Inc., the petitioner in the proceeding, wrote the Department to acquiesce in Fujitsu's request. Therefore, the Department has amended the scope language to clarify that merchandise imported pursuant to contracts for vector supercomputer systems entered into prior to October 16, 1997, are outside the scope of this order. Petitioner also requested clarification as to whether the exercise of an option in a contract entered into prior to October 16, 1997, constitutes a new contract entered into on the day the option is exercised. Should the petitioner bring the exercise of such an option to the Department's attention in the form of a request for a ruling on the scope of this order pursuant to 19 CFR 351.225(c), the Department will either issue a final ruling under paragraph (d) of that section or will initiate a scope inquiry under paragraph (e).

Antidumping Duty Order

On October 7, 1997, in accordance with section 735(d) of the Act, the U.S. International Trade Commission (ITC) notified the Department that imports of vector supercomputers from Japan threaten material injury to the U.S. industry. The ITC did not determine that but for the suspension of liquidation of entries of vector supercomputers from Japan, the domestic industry would have been materially injured. Accordingly, the
