

decision in this action we are amending our final determination, and we will subsequently instruct the U.S. Customs Service to change the appropriate cash deposit requirements entries subject to this investigation.

Amendment to Final Determination

Pursuant to 516A(e) of the Tariff Act of 1930, as amended, (the Act) we are now amending the final results of this investigation of certain cut-to-length carbon steel plate from Finland.

The recalculated weighted-average margins are as follows:

Producer/manufacturer/exporter	Margin percentage
Rautaruukki Oy	40.36
All Others	40.36

In August 1993, the U.S. International Trade Commission (the Commission) determined that imports of certain cut-to-length carbon steel plate from Finland materially injure a U.S. industry. As a consequence of the Commission's affirmative determination, these products were subject to an antidumping duty order. Since publication of the LTFV final determination and order, the Department has completed, pursuant to Section 751 of the Act, first and second administrative reviews of the antidumping order. As a result, this amended final determination does not necessitate a change in cash deposit rates nor liquidation of the subject merchandise as the order relates to Rautaruukki Oy. However, the Department will instruct the U.S. Customs Service to change the appropriate cash deposit requirements to 40.36 percent of the entered value of the subject merchandise for all other producers/exporters.

Dated: October 22, 1997.

Robert S. LaRussa,

Assistant Secretary for Import Administration.
