

**§ 71.1 [Amended]**

2. The incorporation by reference in 14 CFR 71.1 of the Federal Aviation Administration Order 7400.9E, Airspace Designations and Reporting Points, dated September 10, 1997, and effective September 16, 1997, is amended as follows:

*Paragraph 6005 Class E airspace areas extending upward from 700 feet or more above the surface of the earth.*

\* \* \* \* \*

**ANM WY E5 Powell, WY [Revised]**

Powell Municipal Airport, WY

(Lat. 44°52'12" N, long. 108°47'59" W)

Powell NDB

(Lat. 44°52'01" N, long. 108°47'18" W)

That airspace extending upward from 700 feet above the surface within a 7-mile radius of the Powell Municipal Airport, and within 2.7 miles each side of the Powell NDB 164° bearing extending from the 7-mile radius to 7.9 miles southeast of the Powell NDB; that airspace extending upward from 1,200 feet above the surface beginning at lat. 45°22'00" N, long. 108°55'03" W; to lat. 45°22'00" N, long. 108°11'02" W; to lat. 44°15'15" N, long. 108°11'02" W, thence southwestward along the edge of the Worland, WY, 1,200-foot Class E airspace area to lat. 44°00'00" N, long. 108°24'43" W; west to lat. 44°00'00" N, long. 109°00'00" W; north to lat. 44°20'00" N, long. 109°00'00" W; thence west along lat. 44°20'00" N, to the east side of V-465, thence northeast along the east side of V-465 to the point of beginning.

**DEPARTMENT OF THE INTERIOR****National Park Service****36 CFR Part 13**

**Glacier Bay National Park; Notice of Public Workshop on Commercial Fishing Proposed Rule and Environmental Assessment Alternatives**

**AGENCY:** National Park Service, Interior.

**ACTION:** Notice of Public Workshop on Commercial Fishing Proposed Rule and Environmental Assessment Alternatives for Glacier Bay National Park.

**SUMMARY:** The National Park Service will conduct a public workshop on Glacier Bay National Park commercial fishing issues in Juneau, Alaska on November 6, 1997. The workshop will include public review and discussion of

the NPS Proposed Rule published on April 16, 1997 (62 FR 18547) and other alternatives under consideration in an Environmental Assessment addressing commercial fishing in the Park. The workshop will be held in the Egan Room at Centennial Hall from 9:00 am to 5:00 pm, and may continue on November 7 if there is sufficient public interest. Additional public workshops and hearings on the NPS Proposed Rule and Environmental Assessment are planned in Alaskan communities and Seattle, Washington during the winter and spring; notice of these public workshops and hearings will be published in the **Federal Register**.

**DATES:** The workshop will be held on November 6, 1997 from 9:00 am to 5:00 pm, and may continue on November 7 if there is sufficient public interest.

**ADDRESSES:** The workshop will be held in Juneau in the Egan Room at Centennial Hall.

**FOR FURTHER INFORMATION CONTACT:** J. M. Brady, Superintendent, Glacier Bay National Park and Preserve, P.O. Box 140, Gustavus, Alaska 99826, Telephone: (907) 697-2230.

Dated: October 23, 1997.

**FEDERAL COMMUNICATIONS COMMISSION**

**47 CFR Parts 2 and 25**

[ET Docket No. 97-214; FCC 97-363]

**Allocation of 455-456 MHz and 459-460 MHz Bands to MSS**

**AGENCY:** Federal Communications Commission.

**ACTION:** Proposed rule.

**SUMMARY:** The *Notice of Proposed Rule Making* ("NPRM") proposes to amend the Commission's Rules to allocate the 455-456 MHz and 459-460 MHz bands to the Mobile Satellite Service (Earth-to-space) ("MSS uplinks") on a primary basis for non voice, non-geostationary mobile satellite services ("NVNG MSS"). When implemented, this service, also referred to as the "Little LEO" satellite service, will use constellations of low-Earth orbiting ("LEO") satellites to provide commercial radiolocation and two-way data messaging services to potential customers anywhere in the world. This action proposes to implement domestically the NVNG MSS allocations

adopted at the 1995 World Radiocommunication Conference ("WRC-95").

**DATES:** Comments must be filed on or before December 1, 1997, and reply comments must be filed on or before December 15, 1997.

**ADDRESSES:** Comments and reply comments should be sent to the Office of Secretary, Federal Communications Commission, Washington, D.C. 20554. If participants want each Commissioner to receive a personal copy of their comments, an original plus nine copies must be filed.

**FOR FURTHER INFORMATION CONTACT:** Tom Derenge, Office of Engineering and Technology, (202) 418-2451.

**SUPPLEMENTARY INFORMATION:** This is a summary of the Commission's *Notice of Proposed Rule Making*, ET Docket 97-214, FCC 97-363, adopted October 7, 1997, and released October 14, 1997. The full text of this Commission decision is available for inspection and copying during normal business hours in the FCC Reference Center (Room 239), 1919 M Street, N.W., Washington, D.C., and also may be purchased from the Commission's duplication contractor, International Transcription Service, (202) 857-3800, 1231 20th Street, N.W. Washington, D.C. 20036.

**Summary of the Notice of Proposed Rule Making**

1. In the *NPRM*, the Commission proposes to amend its Rules to allocate the 455-456 MHz and 459-460 MHz bands to the Mobile Satellite Service (Earth-to-space) ("MSS uplinks") on a primary basis for non-voice, non-geostationary mobile satellite services ("NVNG MSS"). When implemented, this service, also referred to as the "Little LEO" satellite service, will use constellations of low-Earth orbiting ("LEO") satellites to provide commercial radiolocation and two-way data messaging services to potential customers anywhere in the world. This action proposes to implement domestically the NVNG MSS allocations adopted at the 1995 World Radiocommunication Conference ("WRC-95"). This proposal would also address the growing demand for NVNG MSS and could provide satellite operators with increased flexibility in the design of their systems. Additionally, we propose to update Section 2.106 of our Rules to indicate the international allocations and international footnotes adopted at WRC-95 in the domestically allocated NVNG MSS frequency bands.

2. Little LEO satellite systems will allow customers to use small,
